User Manual

Campus Portal for Universities, Colleges and Schools

The screenshot displays the 'Departments' management interface within the 'ACADEMIC OPERATIONS WORKSPACE'. The left sidebar contains a 'SETUP FLOW' menu with 'Departments' selected, and a 'FACULTY RELATED' menu. The main content area shows a table of departments with columns for CODE, NAME, INSTITUTION, STATUS, and actions (Edit, Deactivate). A search bar and a 'Go' button are at the top right. A user profile 'testadmin' is visible in the top right corner. An 'Add Department' button is located on the right side of the table. The footer includes the copyright notice '© 2026 Tabsan EduSphere' and an 'AI Assistant' button.

1 Introduction

Tabsan EduSphere is a web-based campus management portal for universities, colleges and schools. It brings departments, programs, courses, enrolments, timetables, attendance, assessments, results, graduation, certificates, finance, reporting and support into one secure portal.

This manual explains every screen in the portal, step by step, with screenshots taken from a running installation. It is organised by area of work, and each section states which roles can use it.

1.1 Who should read this manual

The manual is written for everyone who signs in to the portal:

- SuperAdmin – the platform owner who manages the license, tenants, campuses, modules and portal-wide settings.
- Admin – institution administrators who set up departments, programs, courses, students, timetables, finance and reports.
- Faculty – teachers who manage their classes, attendance, assessments, results, course content and FYP supervision.
- Student – learners who view their timetable, assignments, quizzes, attendance and results, and apply for graduation.
- Finance – staff who issue and confirm fee receipts and run the payment report.

1.2 User roles at a glance

Each user account has exactly one role. The role decides which menus appear in the sidebar and which actions are allowed. Appendix A lists every menu against every role.

Role	Scope	Typical work
SuperAdmin	Whole installation, all tenants	License, tenants and campuses, module composition, sidebar visibility, branding, institution policy, admin users, audit logs
Admin	One tenant; assigned departments	Departments, programs, courses, enrolments, students, timetables, attendance, results, graduation, certificates, user import, payments, reports
Faculty	Assigned departments and classes	Teacher timetable, assignments, attendance, results, gradebook, rubrics, quizzes, LMS, course material, FYP, announcements
Student	Own records	Timetable, assignments, quizzes, course material, attendance, results, degree audit, graduation application
Finance	Fee receipts	Payments, payment summary report, analytics

1.3 Accounts used in this manual

The screenshots were captured with the demonstration accounts below. All demo accounts use the password EduSphere147. Change these passwords before any production use.

Username	Role	Notes
superadmin	SuperAdmin	Full platform access, including license and tenant management.
testadmin	Admin	Testing account with every right except SuperAdmin. Works in the University tenant and is assigned to all of its departments. Created by Scripts/08-Create-Test-Admin-User.sql.
faculty.it1	Faculty	Information Technology faculty member.
bscs8s1	Student	BSCS student in semester 8.
finance1	Finance	Finance officer.

NOTE Every account other than SuperAdmin belongs to one tenant (for example University, College or School). Only SuperAdmin can see data across tenants.

1.4 Conventions used in this manual

- Menu names, buttons and field labels are shown in bold, for example Departments > Add Department.
- Numbered lists are procedures: follow the steps in order.
- Note boxes add context, Tip boxes suggest a faster way, and Important boxes warn about actions that change data or access.
- Fields marked with a red asterisk (*) in the portal are required.

2 Getting Started

This chapter covers signing in, finding your way around the portal, and signing out.

2.1 Opening the portal and signing in

Open the portal address supplied by your administrator in a current browser (Microsoft Edge, Google Chrome, Mozilla Firefox or Safari).

Procedure

1. Open the portal address. The Sign in to your account page appears.
2. Enter your **Username** and **Password**. Use the eye icon to show or hide the password while typing.
3. Click **Sign In**.
4. If two-factor authentication is enabled on your account, enter the 6-digit code from your authenticator app when prompted.
5. The portal opens. SuperAdmin users land on the Dashboard; all other users land on the Helpdesk ticket queue.

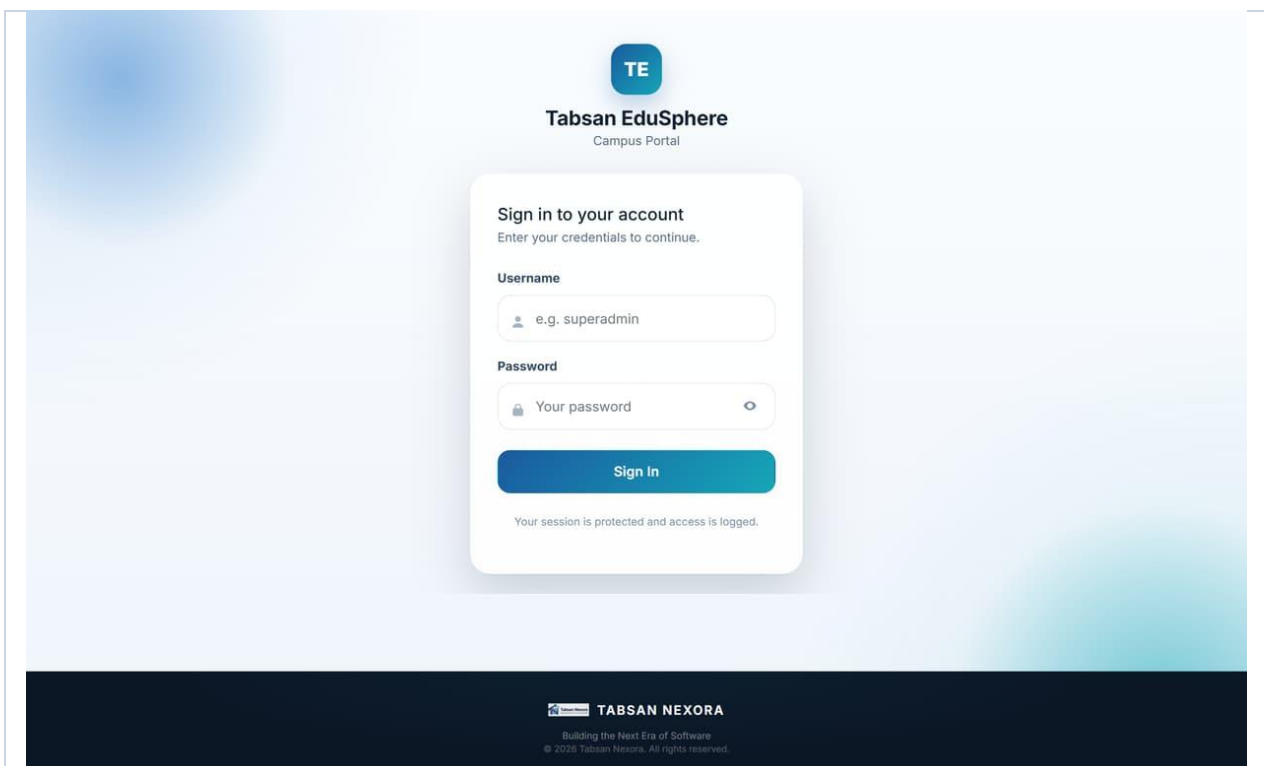

Figure 2.1 The sign-in page

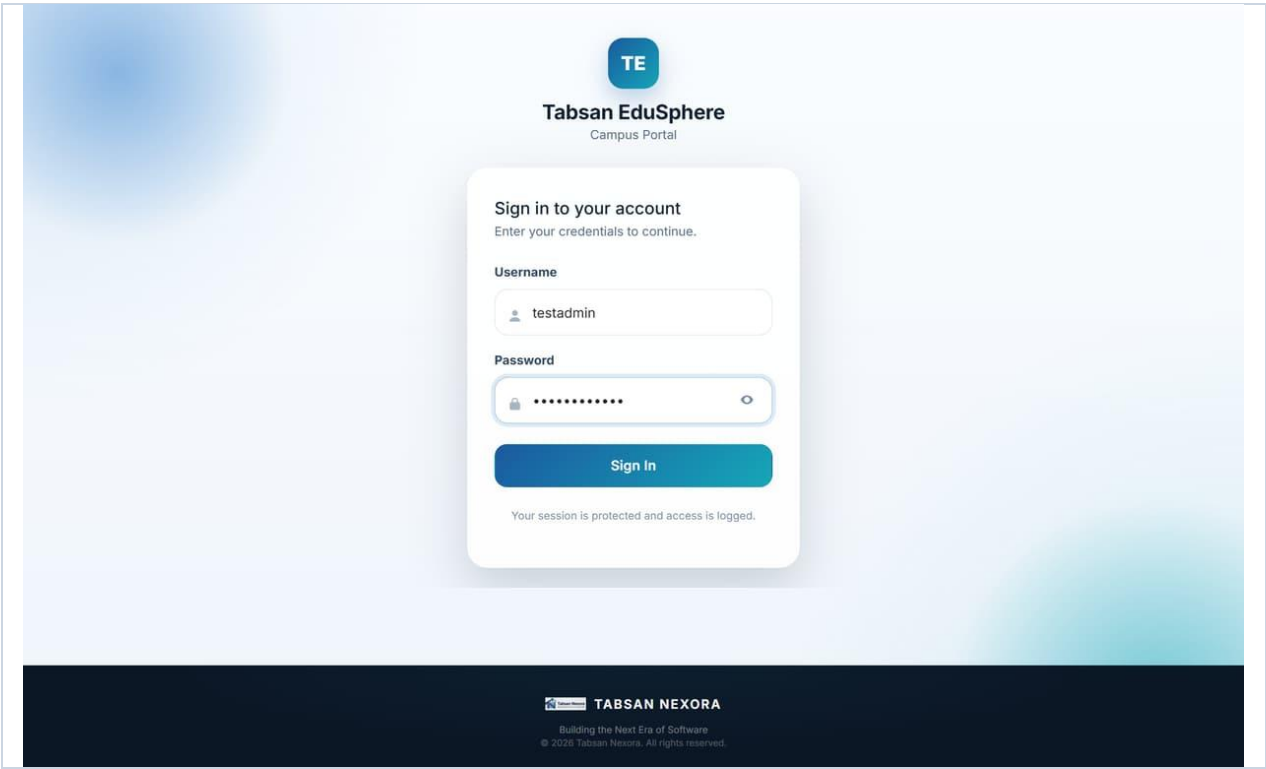

Figure 2.2 Sign-in page with credentials entered

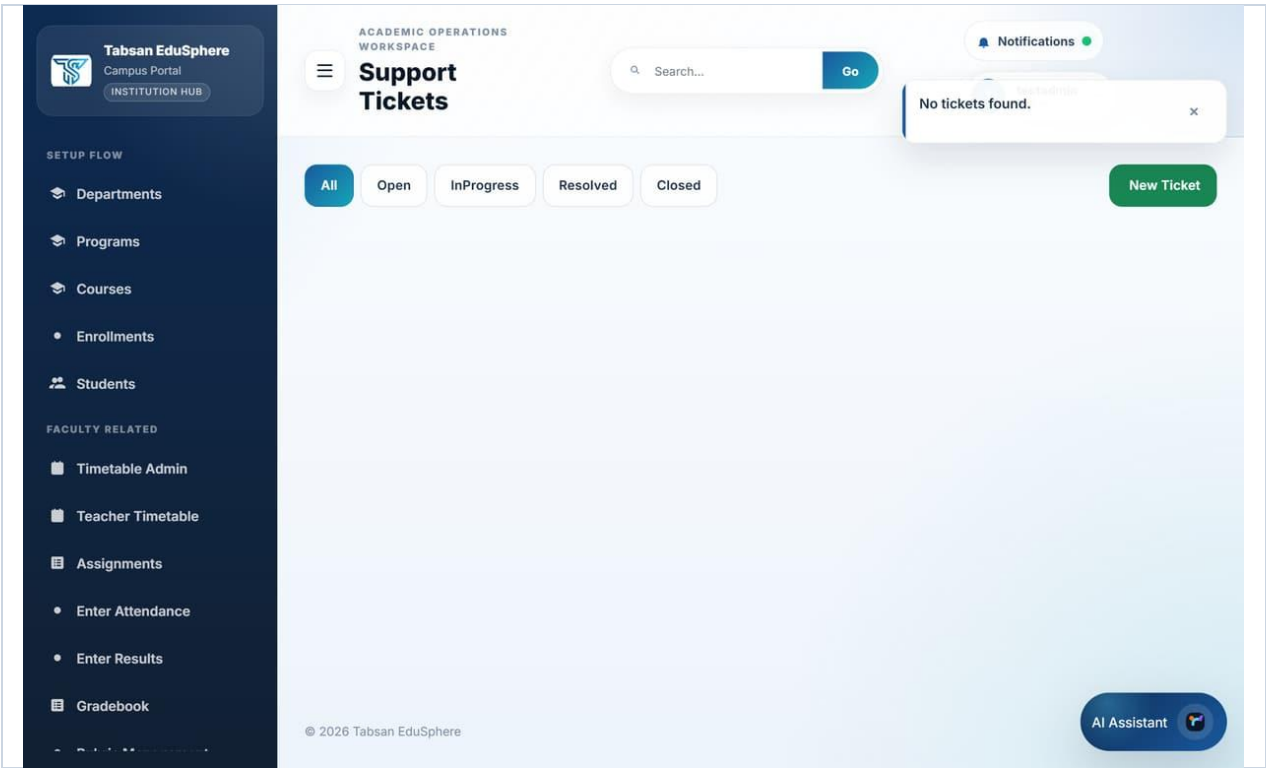

Figure 2.3 Landing page after signing in (Admin)

TIP Your session is protected and every sign-in is logged. If you see a message that your account is locked or your password has expired, contact your administrator.

2.2 The portal layout

Every page shares the same layout:

- **Sidebar** (left) – the menus your role can use, grouped into sections such as Setup Flow, Faculty Related, Student Related, Academic Related, Settings Related and Financial Related. The highlighted item is the current page. Use the menu button (three lines) to collapse or expand it.
- **Page header** – the page title and the workspace name.
- **Search** – type a page or feature name and click **Go** to jump straight to it.
- **Notifications** – opens your notification inbox. A green dot means you have unread notifications.
- **Profile chip** – shows your username and role; click it to open the profile menu.
- **AI Assistant** (bottom right) – a chat assistant that answers questions about the portal, when the AI module is enabled.

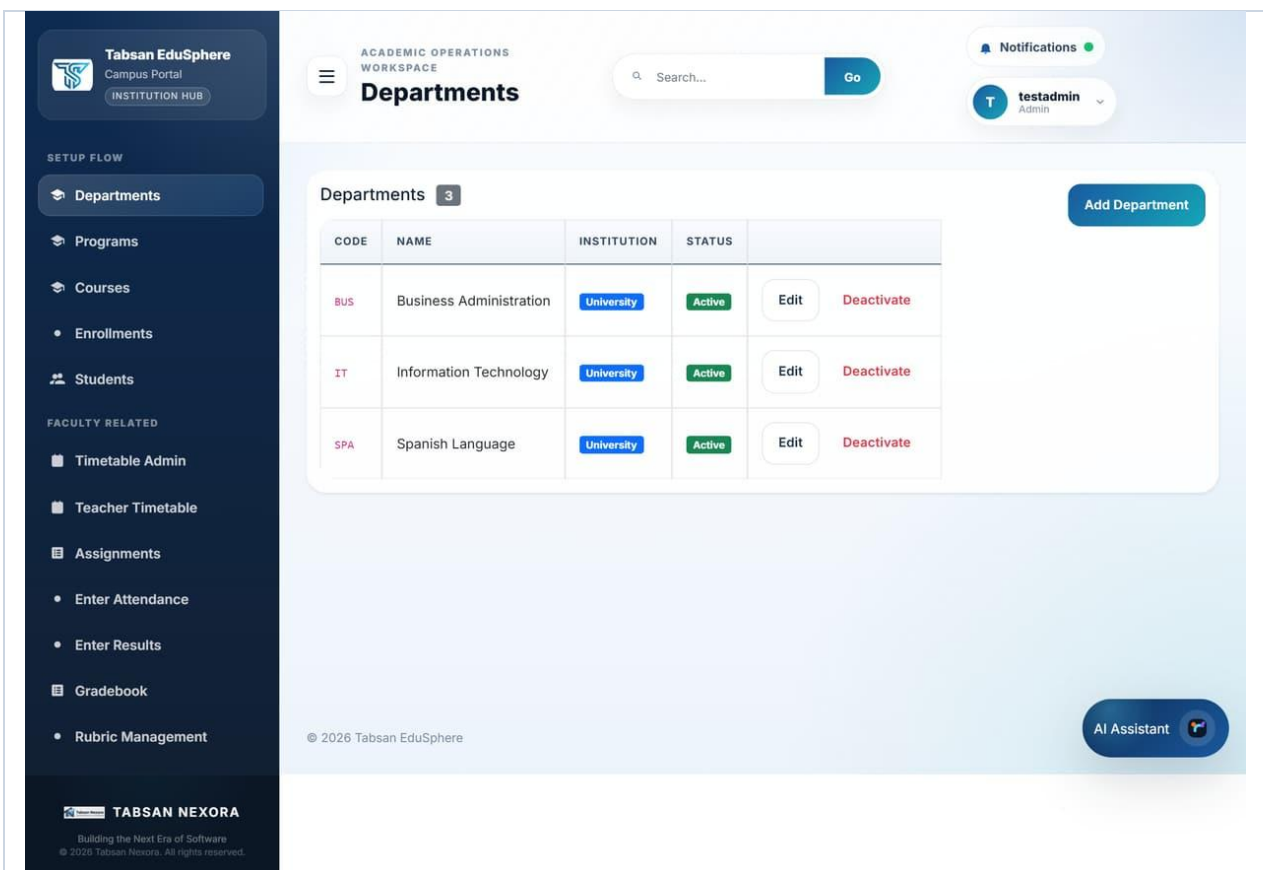

Figure 2.4 Portal layout: sidebar, header, search, notifications and profile

2.3 Profile menu and signing out

Procedure

1. Click your name in the top-right corner.
2. Choose **View Notifications**, **User Settings** or **Two-Factor Authentication** to open those pages.
3. Click **Sign Out** to end your session. Always sign out on shared computers.

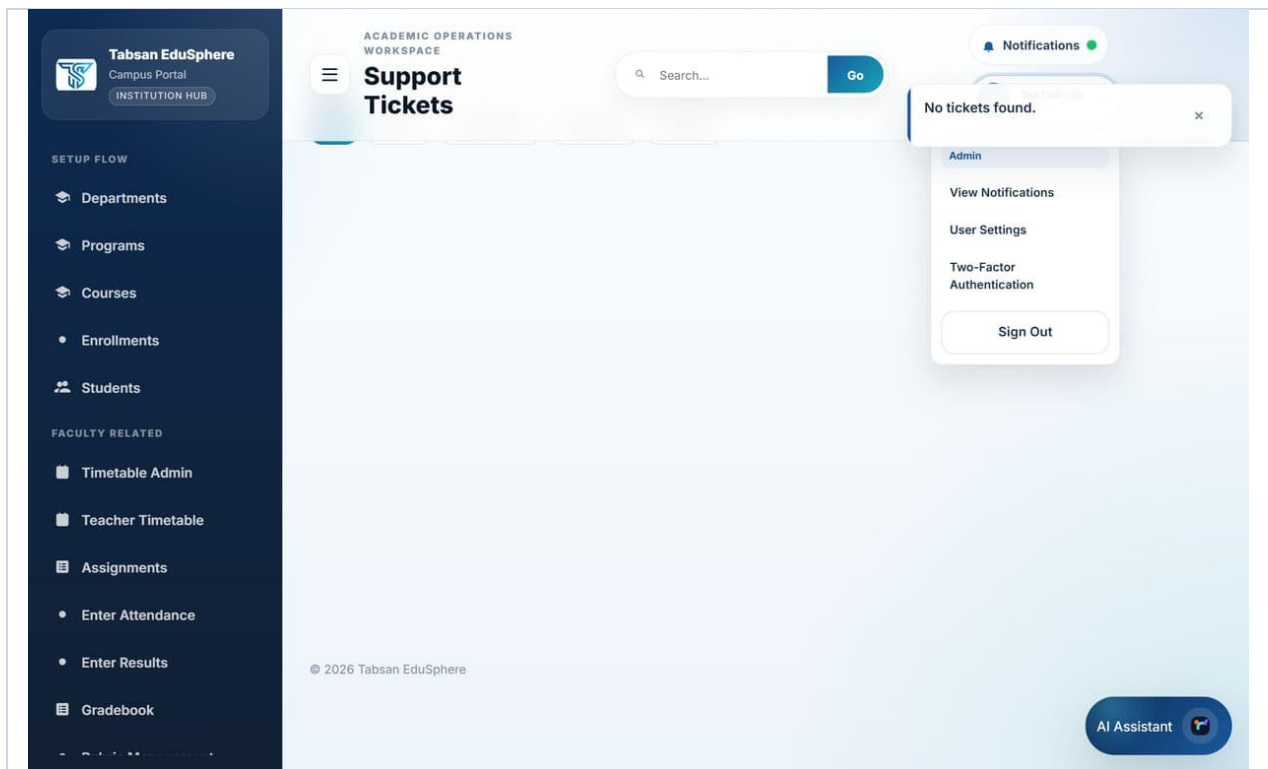

Figure 2.5 *The profile menu*

2.4 Access messages and read-only mode

If you open a page your role cannot use, the portal returns you to your landing page with a short message explaining why. Ask your administrator if you believe you need access.

IMPORTANT If the product license is missing, expired or invalid, the portal switches to read-only mode: you can still view information, but saving, creating and deleting are blocked until a SuperAdmin uploads a valid license (see License Update).

3 Academic Setup

Academic setup follows the order shown in the Setup Flow menu: departments, then programs, then courses and offerings, then enrolments. Students are created through User Import (Chapter 9).

3.1 Departments

Available to: SuperAdmin, Admin

Departments are the top level of the academic structure. Each department belongs to one institution type (University, College or School).

Procedure

1. Open **Departments** from the Setup Flow menu. The list shows each department's code, name, institution type and status.
2. Click **Add Department**.
3. Enter the **Department Code** (short and unique, for example CS) and the **Department Name**, then choose the **Institution Type**.
4. Click **Create**. The department appears in the list.
5. To change a department later, click **Edit**. To retire it without deleting history, click **Deactivate**.

The screenshot displays the 'Departments' page in the Tabsan EduSphere Academic Operations Workspace. The sidebar on the left shows the 'SETUP FLOW' menu with 'Departments' selected. The top header includes a search bar and a user profile for 'testadmin'. The main content area features a table with the following data:

CODE	NAME	INSTITUTION	STATUS	
BUS	Business Administration	University	Active	Edit Deactivate
IT	Information Technology	University	Active	Edit Deactivate
SPA	Spanish Language	University	Active	Edit Deactivate

An 'Add Department' button is located in the top right corner of the table area. The footer shows '© 2026 Tabsan EduSphere' and an 'AI Assistant' button.

Figure 3.1 Departments list

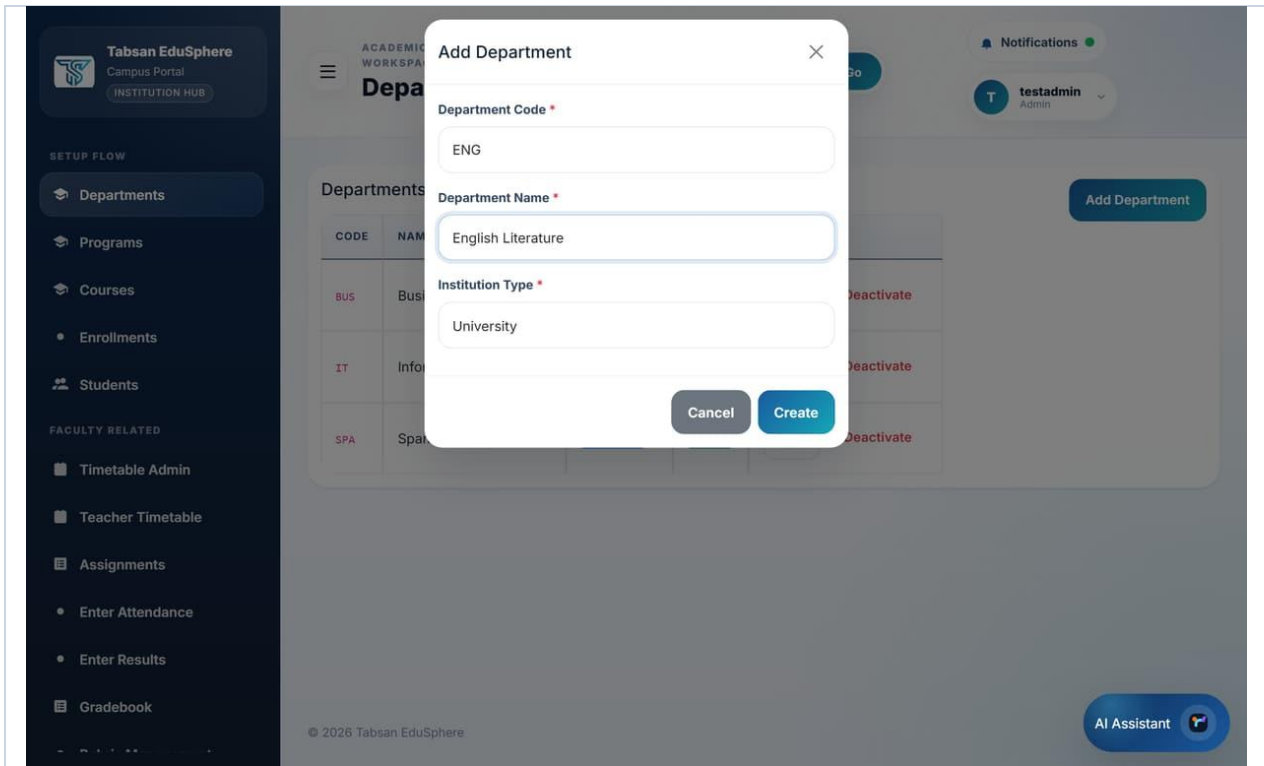

Figure 3.2 Add Department form completed

NOTE SuperAdmin also sees tenant and campus filters and the Admin Department Assignments panel, which controls which Admin users manage each department.

3.2 Programs

Available to: SuperAdmin, Admin, Faculty (view)

Programs are the degrees or courses of study offered by a department, for example Bachelor of Science in Computer Science. Total Levels is the number of semesters (University) or classes (School/College).

Procedure

1. Open **Programs**.
2. In **Create Program**, enter the **Code** and **Name**, choose the **Department**, and set **Total Levels**.
3. Click **Create**.
4. Use **Filter by Department** to narrow the Program List, and **Rename** or **Deactivate** to maintain programs.

Figure 3.3 Programs page

3.3 Courses and offerings

Available to: SuperAdmin, Admin, Faculty (view)

A course is a subject (code, title, credit hours and type). An offering is a course taught in a particular semester or class by a faculty member; students enrol in offerings.

Procedure

1. Open **Courses** and choose the **Department** in the scope filter, then click **Apply Scope**.
2. Click **Add Course** to create a course: enter the code, title, credit hours and type (core or elective).
3. In **Active Offerings**, create an offering by choosing the course, semester and faculty member.
4. Use **Off** to close an offering when teaching ends.

BAN701 — Business Analytics		BBA Semester 1	No	Del

Figure 3.4 Courses and active offerings

3.4 Enrollments

Available to: SuperAdmin, Admin, Faculty (view)

Enrollments manage the roster of each course offering.

Procedure

1. Open **Enrollments**.
2. Choose an offering in **Select Course Offering**. The Enrollment Roster lists the students enrolled.
3. Click **Enroll Student**, choose the student and click **Enroll**. Use **Drop** to remove an enrolment.
4. Admins can open or close enrolment for the whole tenant/campus with **Deactivate Enrollment** (and re-open it the same way).

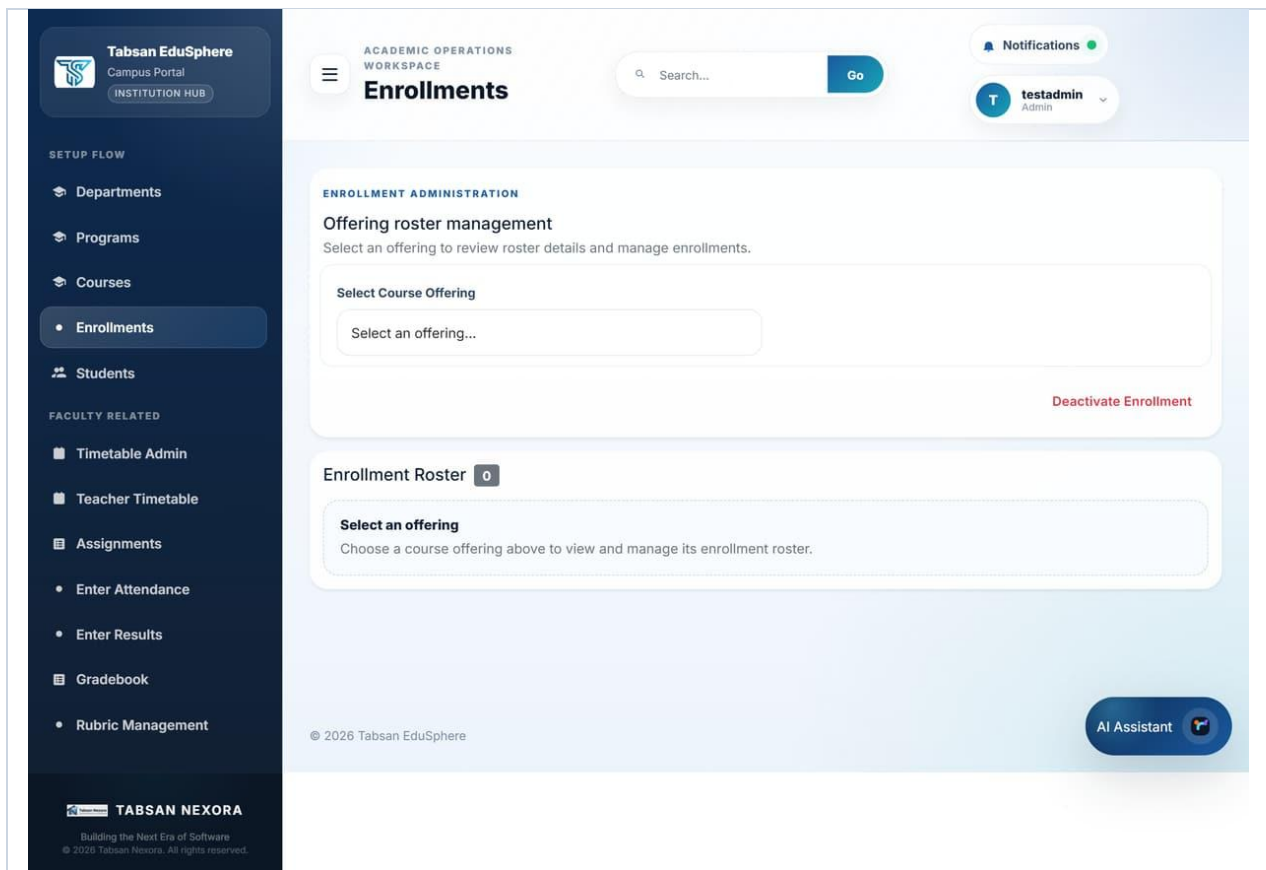

Figure 3.5 Enrollments page

NOTE Courses with prerequisites can only be enrolled in once the student has passed the prerequisite course (see Prerequisites).

3.5 Students

Available to: SuperAdmin, Admin, Faculty

The Students page is a searchable directory of student profiles: registration number, full name, department, program, level and status.

Procedure

1. Open **Students**.
2. Choose a **Department** to filter the list.
3. Scan or search the list; the count beside Student List shows how many match.

4 Timetables and Facilities

4.1 Buildings and rooms

Available to: SuperAdmin, Admin

Buildings and rooms are used when scheduling timetable entries.

Procedure

- 1. Open **Buildings**, enter the **Name** and **Code** under Add Building, and click **Create**.
- 2. Open **Rooms** (or click **Rooms** on the Buildings page), choose the building, enter the **Room Number** and **Capacity**, and click **Create**.

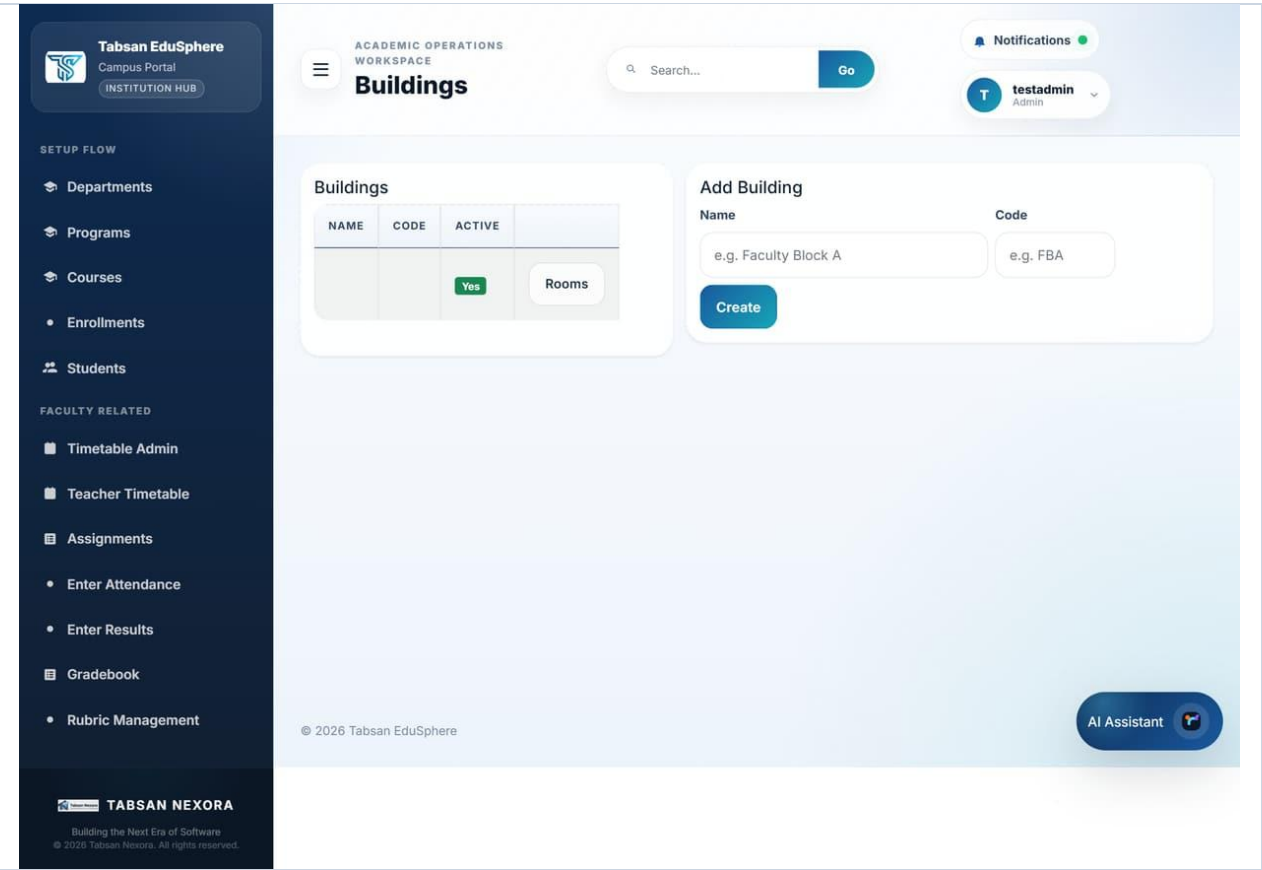

Figure 4.1 Buildings

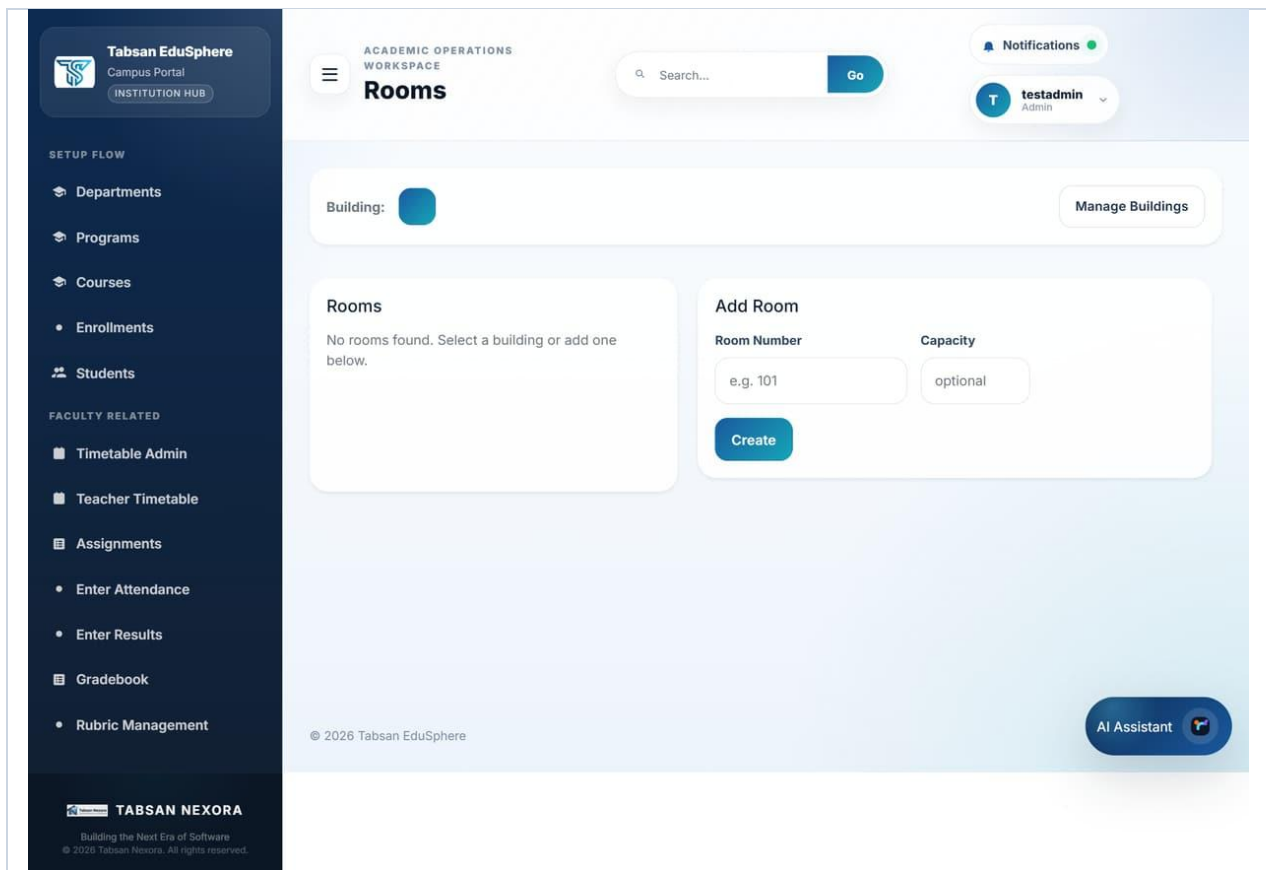

Figure 4.2 Rooms

4.2 Timetable Admin

Available to: SuperAdmin, Admin

Timetable Admin creates class timetables and their weekly entries.

Procedure

1. Open **Timetable Admin** and set the **Scope Selection** (campus and department), then click **Apply Scope**.
2. Under **Create Timetable**, choose the **Institute**, **Degree Program**, **Semester**, **Semester Number** and **Effective Date**, then click **Create Timetable**.
3. Select the timetable in **Available Timetables**.
4. Under **Add Entry**, choose the **Day**, **Start** and **End** time, **Subject**, **Teacher**, **Building** and **Room**, then click **Add Entry**. Repeat for every class in the week.
5. Publish the timetable so students can see it in Student Timetable.

5 Teaching and Learning

5.1 Assignments

Available to: SuperAdmin, Admin, Faculty, Student

Faculty create assignments for an offering, collect submissions and grade them. Students see their assignments with due dates, marks and status.

Procedure

1. Open **Assignments** and choose the department and offering.
2. Faculty: create an assignment with a title, description, due date and maximum marks, then publish it.
3. Open an assignment to review submissions and enter marks and feedback.
4. Tick **Show inactive assignments** to see retired assignments.

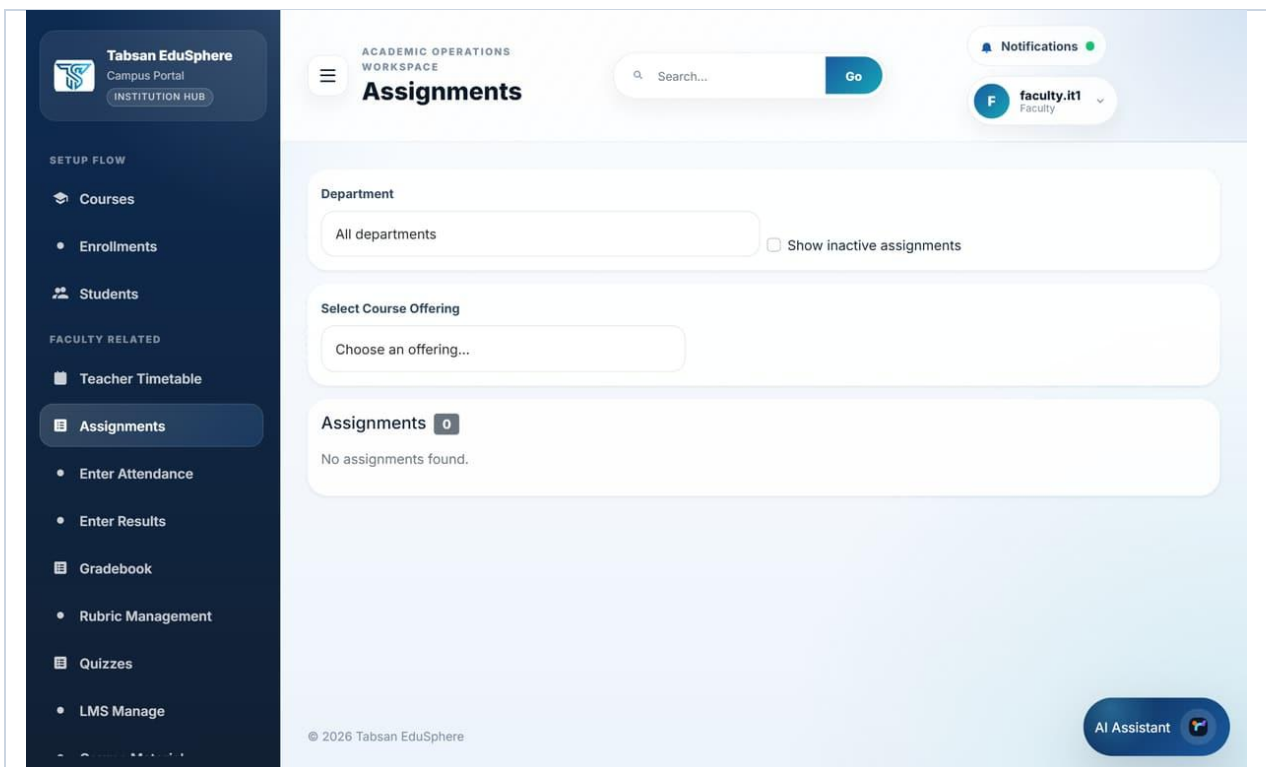

Figure 5.1 Assignments (Faculty)

The screenshot displays the 'Assignments' page in the Tabsan EduSphere system. The interface includes a dark sidebar on the left with navigation links for Faculty and Student related actions. The top header features a search bar and user profile information. The main content area allows filtering by semester and course offering, followed by a table listing individual assignments with their titles, courses, due dates, marks, and submission status.

TITLE	COURSE	DUE DATE	MARKS	STATUS
Assignment 2	-	-	- / 0	Submitted

Assignment 2	-	-	36.50/0	Submitted

Figure 5.2 Assignments (Student view)

5.2 Entering attendance

Available to: SuperAdmin, Admin, Faculty

Attendance is recorded per course offering and date.

Procedure

1. Open **Enter Attendance**.
2. Choose the **Department**.
3. Choose the **Course** (program).
4. Choose the offering in **Select Course Offering**. The attendance summary for the offering and the Attendance Entry Table load.
5. In the entry table, tick **Present** for each student who attended (untick for absent) and click **Save Attendance**.

- To load a whole class at once, click **Get Template**, fill in the CSV, and use **Import Attendance**. Tick **Strict mode** to reject the whole file if any row is invalid.

The screenshot shows the 'Attendance' page in the Tabsan EduSphere interface. The left sidebar contains a 'SETUP FLOW' menu with options: Departments, Programs, Courses, Enrollments, and Students. Below this is a 'FACULTY RELATED' menu with options: Timetable Admin, Teacher Timetable, Assignments, Enter Attendance (highlighted), Enter Results, and Gradebook. The main content area is titled 'Attendance' and includes a search bar and a 'Go' button. Below the title are filters for Campus (All Campuses), Department (All Departments), Course (All Courses), and Semester (All Semester). A 'Select Course Offering' dropdown is set to 'All / My Attendance'. A red notification banner at the top right says 'View Low Attendance (<75%)'. Below this is a large empty box with a clipboard icon and the text 'Select a course offering to view attendance records.' At the bottom, the 'Attendance Entry Table' section includes a 'Get Template' button, a 'Strict mode' checkbox (checked), a 'Choose File' button (disabled), and an 'Import Attendance' button. The table has columns for STUDENT ID, STUDENT NAME, DATE, and PRESENT. An 'AI Assistant' button is in the bottom right corner.

Figure 5.3 Enter Attendance – scope filters

This screenshot shows the same 'Attendance' page as Figure 5.3, but with the 'Department' filter set to 'Information Techr'. The 'Class' filter is now visible and set to 'All Class'. The 'Strict mode' checkbox remains checked. The rest of the interface, including the sidebar, search bar, and 'Attendance Entry Table' section, is identical to the previous figure.

Figure 5.4 Step 1: department selected

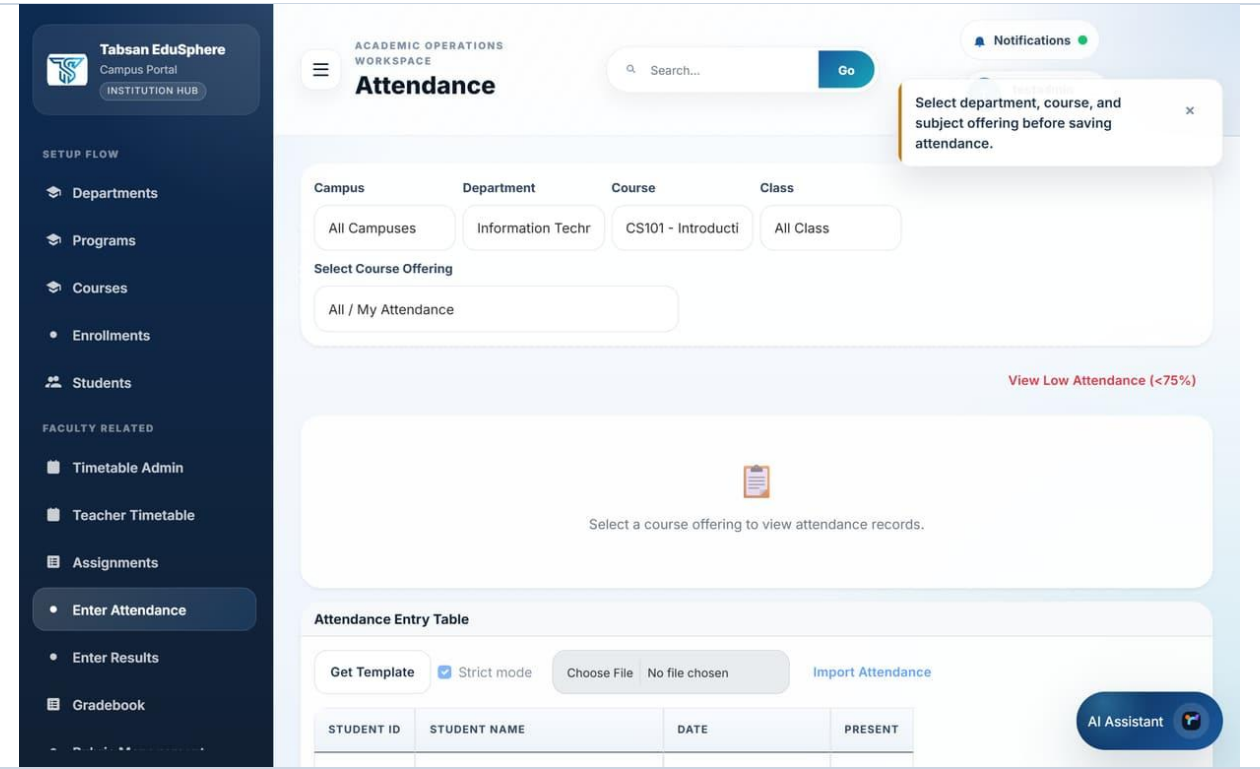

Figure 5.5 Step 2: course selected

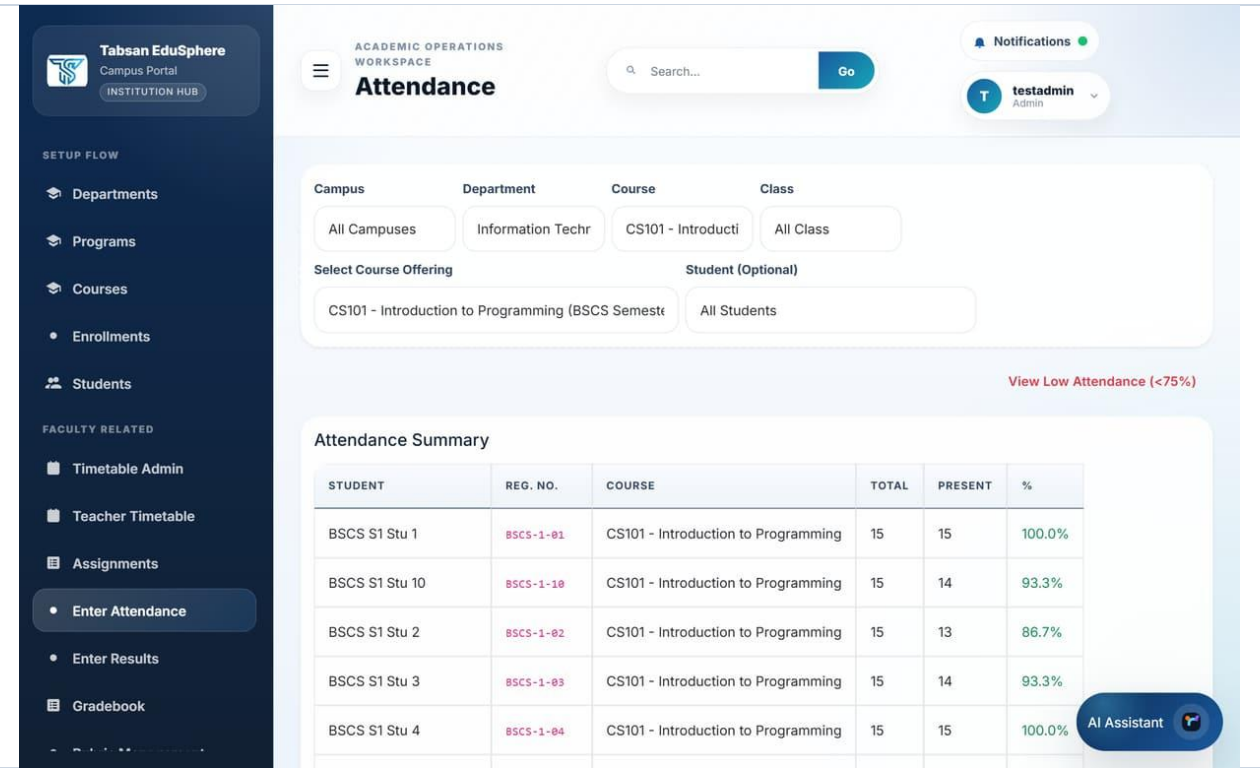

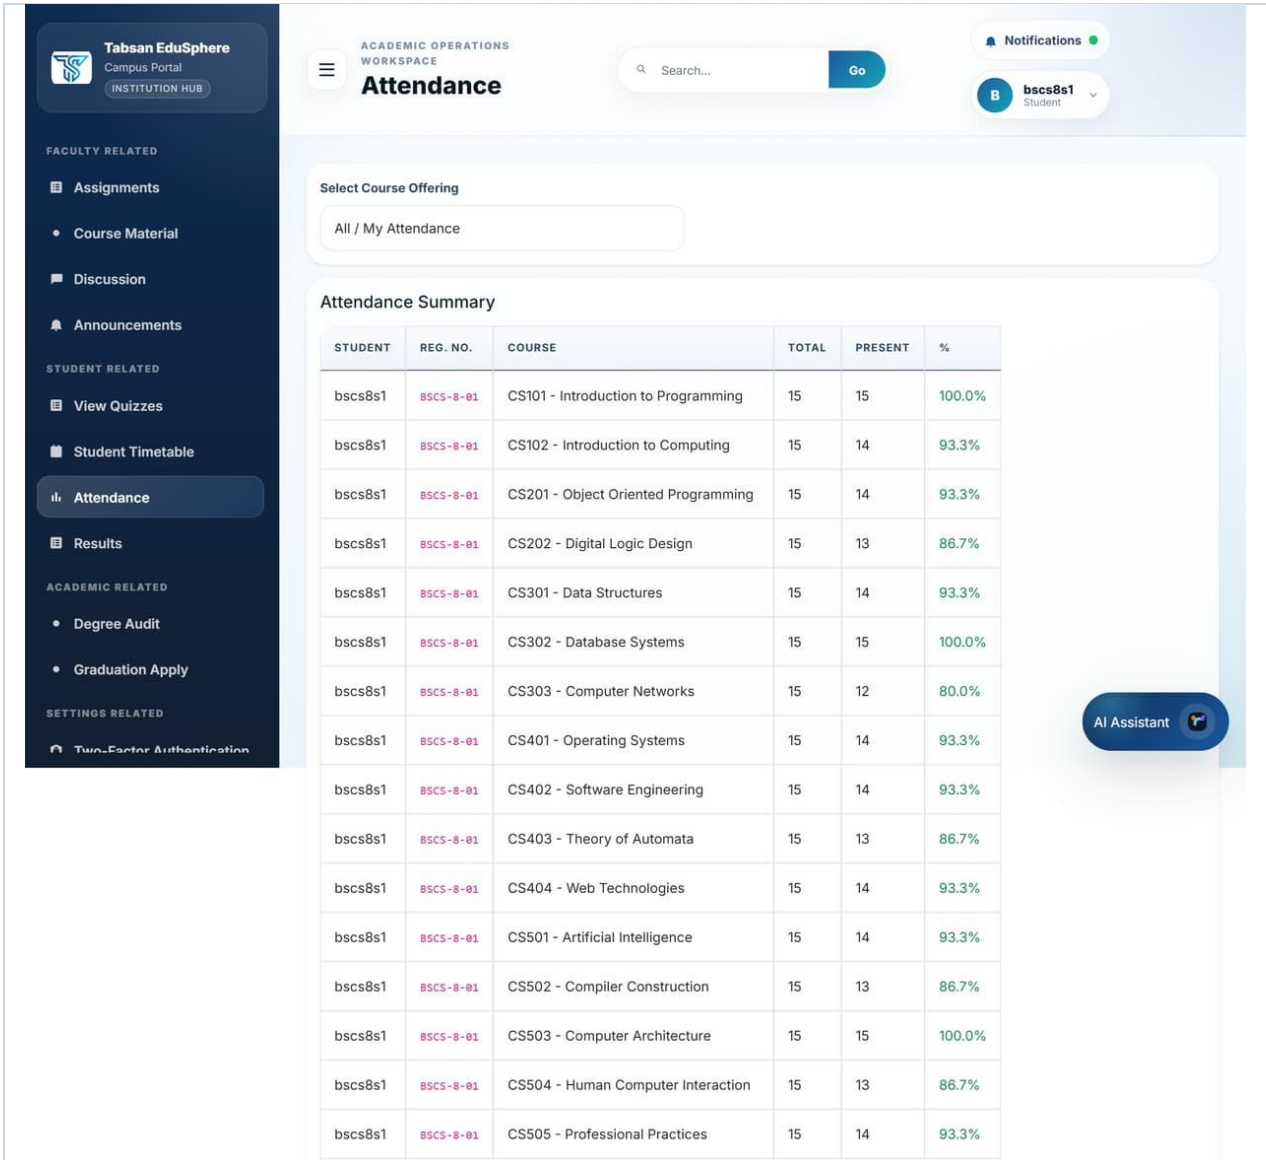

Figure 5.6 Step 3: offering selected – attendance summary per student

TIP Click View Low Attendance (<75%) to list students below the attendance threshold.

5.3 Viewing attendance

Available to: Faculty, Student

Attendance shows totals and percentages per student and course. Students see only their own attendance and a Low Attendance (<75%) list of courses that need attention.

5.4 Entering results

Available to: SuperAdmin, Admin, Faculty

Results are entered per subject and exam type (for example Midterm, Final, Quiz or Assignment). Required filters must be selected before entry is enabled.

Procedure

1. Open **Enter Results** and choose the **Department**.
2. Choose the **Program/Course**.
3. Choose the **Subject**.

4. Choose the **Exam Type** and click **Apply**.
5. Click **+ Enter Result** to add marks for a student, or download the CSV with **Get Template** and upload it with **Import Results**.
6. Review the Result Entry Grid, then click **Publish All** to release the results to students. Use **Export CSV** or **Export PDF** for a copy.

Figure 5.13 My Quizzes (Student)

NOTE Students open View Quizzes, answer the questions before the last date, and click Submit. Marks appear once the quiz is graded.

5.8 LMS Manage

Available to: SuperAdmin, Admin, Faculty

LMS Manage builds weekly learning modules for an offering.

Procedure

1. Open **LMS Manage** and choose the offering.
2. Under **Add New Module**, enter the **Title**, **Week #** and the **Body** (HTML is allowed).
3. Click **Add Module**.

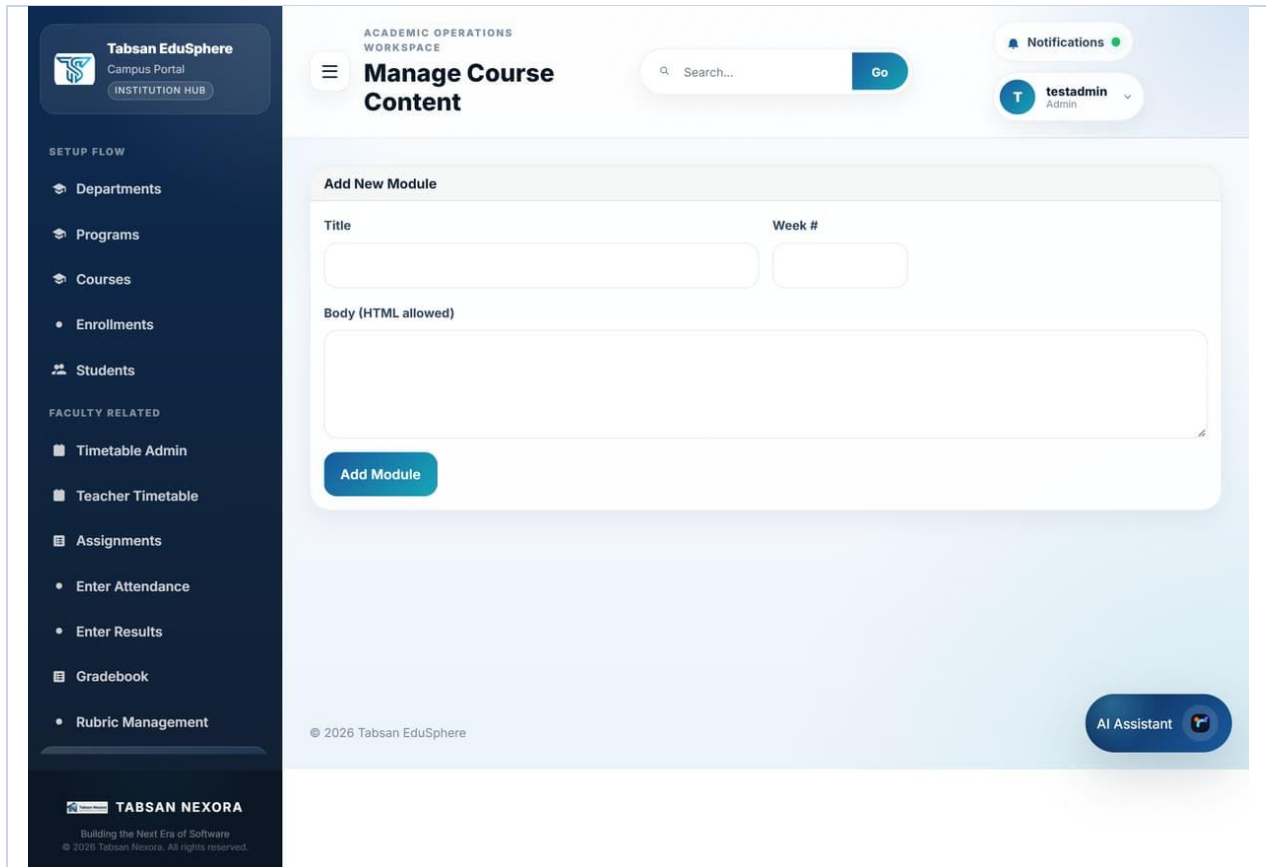

Figure 5.14 LMS Manage

5.9 Course Material

Available to: SuperAdmin, Admin, Faculty, Student

Staff upload documents and links for a subject; students browse and download them.

Procedure

1. Open **Course Material** and set the filters (department, program, semester, subject/course), then click **Apply Filters**.
2. Click **Add Material** to upload a file or link.
3. Tick **Active only** to hide withdrawn material.

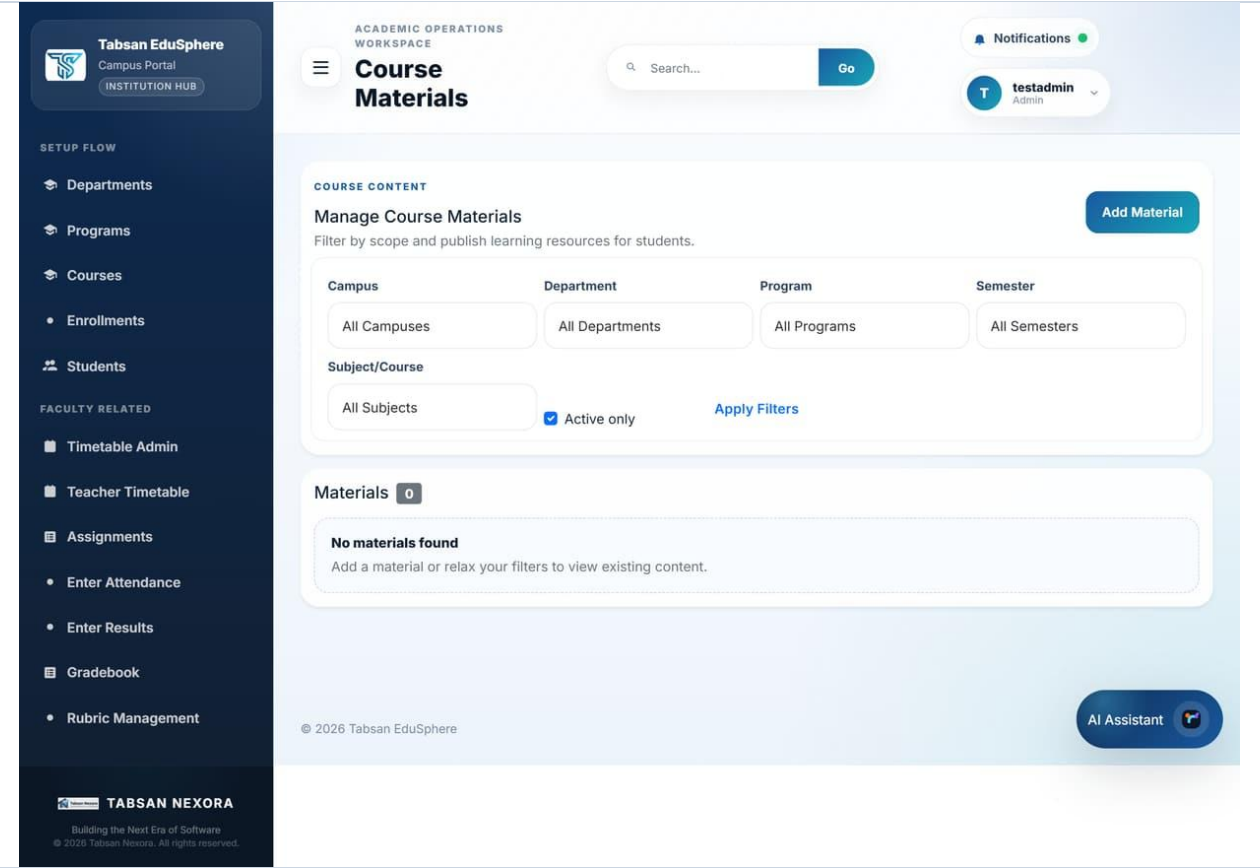

Figure 5.15 Manage Course Materials

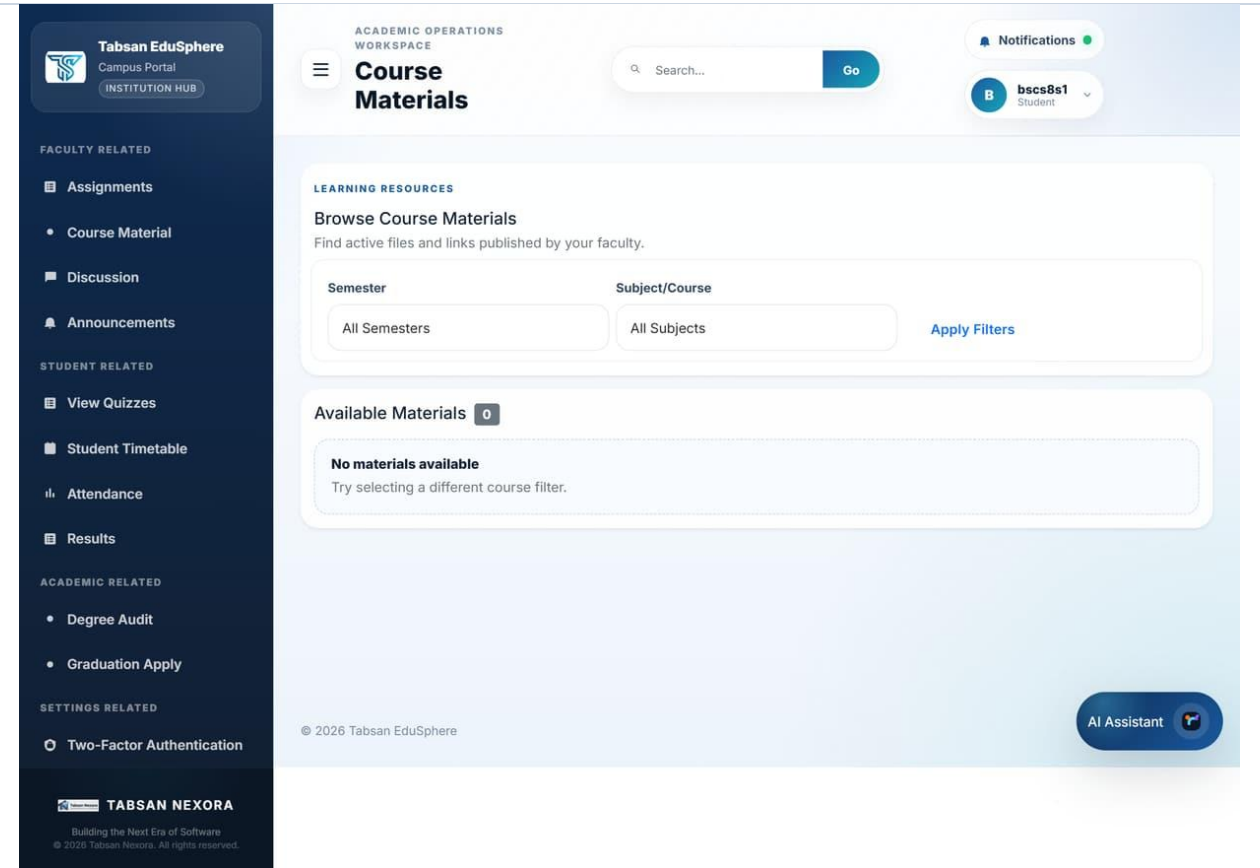

Figure 5.16 Browse Course Materials (Student)

5.10 Discussion

Available to: SuperAdmin, Admin, Faculty, Student

Discussion threads let students and staff ask and answer questions for an offering. Use **Start a New Thread**, enter the question and click **Post**. Faculty can mark a thread as solved.

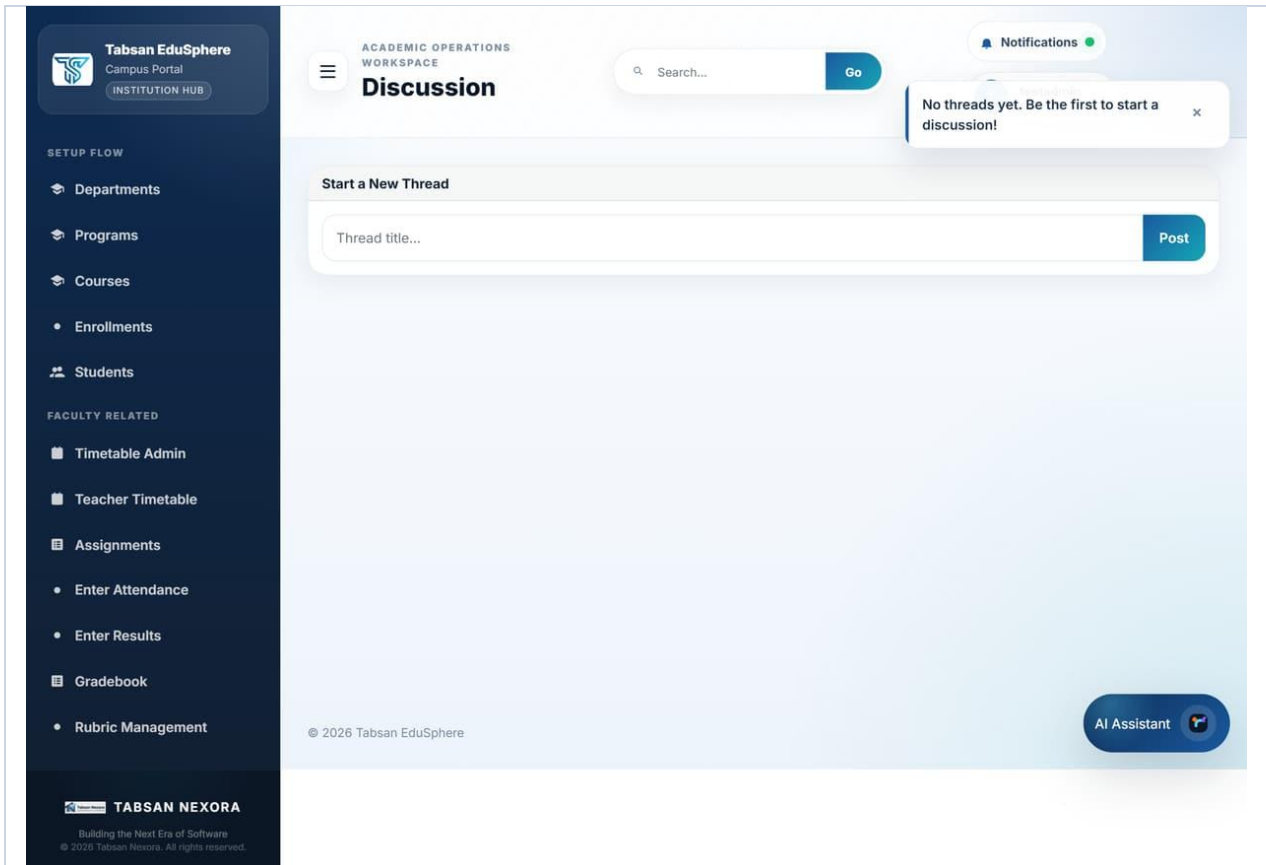

Figure 5.17 Discussion

5.11 Announcements

Available to: SuperAdmin, Admin, Faculty, Student

Announcements publish notices to a department or a single course offering.

Procedure

1. Open **Announcements**.
2. Choose a **Department** and, optionally, a **Course Offering**, then click **Apply** to view announcements in that scope.
3. Staff: under **Post Announcement**, enter the title and message and click **Post**.
4. Tick **Show inactive** to see expired announcements.

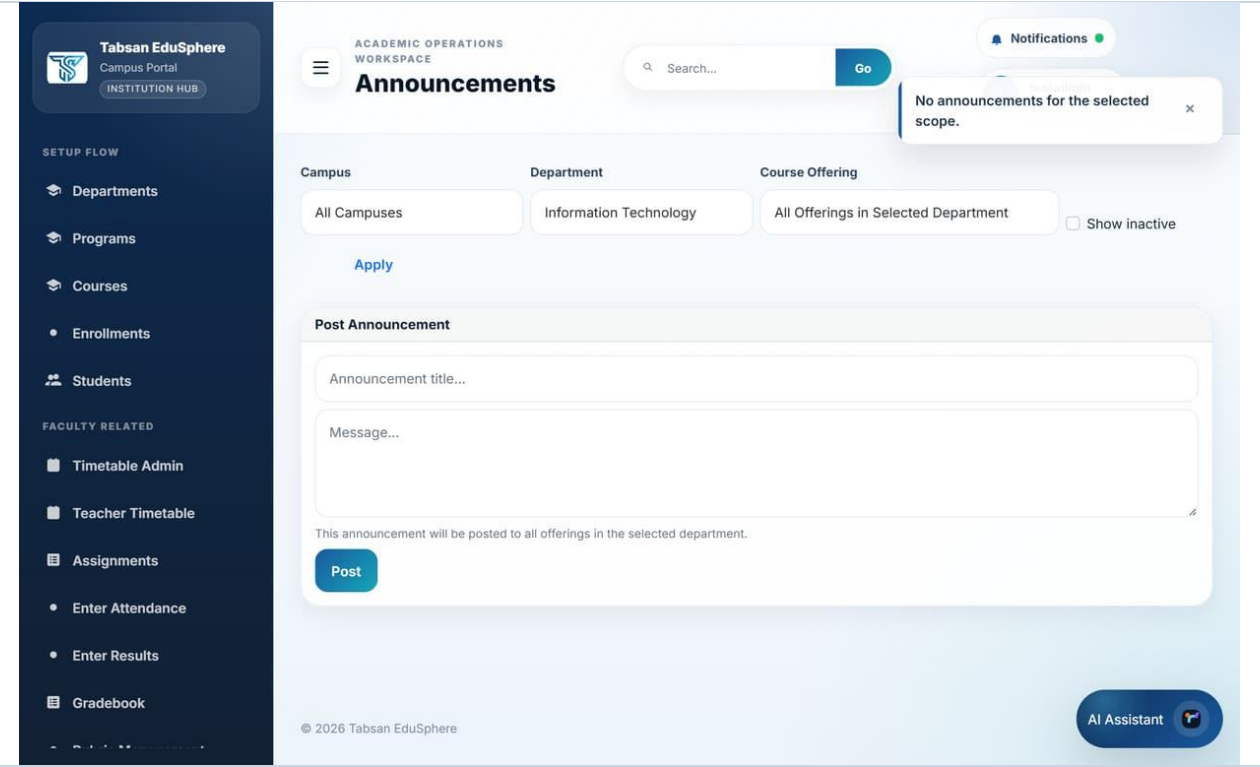

Figure 5.18 Announcements for a department

6 Results, Progression and Final Year Projects

6.1 Results

Available to: SuperAdmin, Admin, Faculty, Student

Staff use Results to review published marks with the same filters as Enter Results. Students see their own results by class, can export them to CSV or PDF, and can click **Request Re-check** on a result they want reviewed.

The screenshot displays the 'Results' page for a student. The sidebar on the left contains navigation links for Faculty Related (Assignments, Course Material, Discussion, Announcements) and Student Related (View Quizzes, Student Timetable, Attendance, Results). The main content area has a 'Results Controls' section with a filter for 'Class' set to 'All Class'. Below this is a table of results with 25 items. The table columns are Course, Student, Class, Marks, Grade, Published, and Re-check. Each row shows a course with a mark and a 'Request Re-check' button. The interface also includes a search bar, a 'Go' button, and export options for CSV and PDF.

COURSE	STUDENT	CLASS	MARKS	GRADE	PUBLISHED	RE-CHECK
—	—	—	84.00/0		Yes	Request Re-check
—	—	—	93.00/0		Yes	Request Re-check
—	—	—	82.00/0		Yes	Request Re-check
—	—	—	75.00/0		Yes	Request Re-check

Figure 6.1 Results (Student view)

6.2 Result Calculation

Available to: SuperAdmin, Admin

Result Calculation defines how marks become grades and GPA.

Procedure

1. In **Section 1: GPA and Score**, choose the **Institute** and map score ranges to GPA points with **Add Row**.
2. In **Section 2: Subject Score Calculation**, choose the **Course Type** or **Course** and set the weight of each **Component** (for example Midterm 30%, Final 50%, Assignments 20%).
3. Tick **Active** and click **Save**.

AI Assistant

Figure 6.2 *Result Calculation*

NOTE University results use GPA scales. School and College results are percentage based and do not need GPA rows.

6.3 Grading Config

Available to: SuperAdmin (edit), Admin and Faculty (view)

Grading Config sets the pass threshold and optional grade ranges for School, College and University separately. Choose the scope, enter the **Pass Threshold** and **Grade Ranges JSON**, tick **Active**, and click the matching Save button.

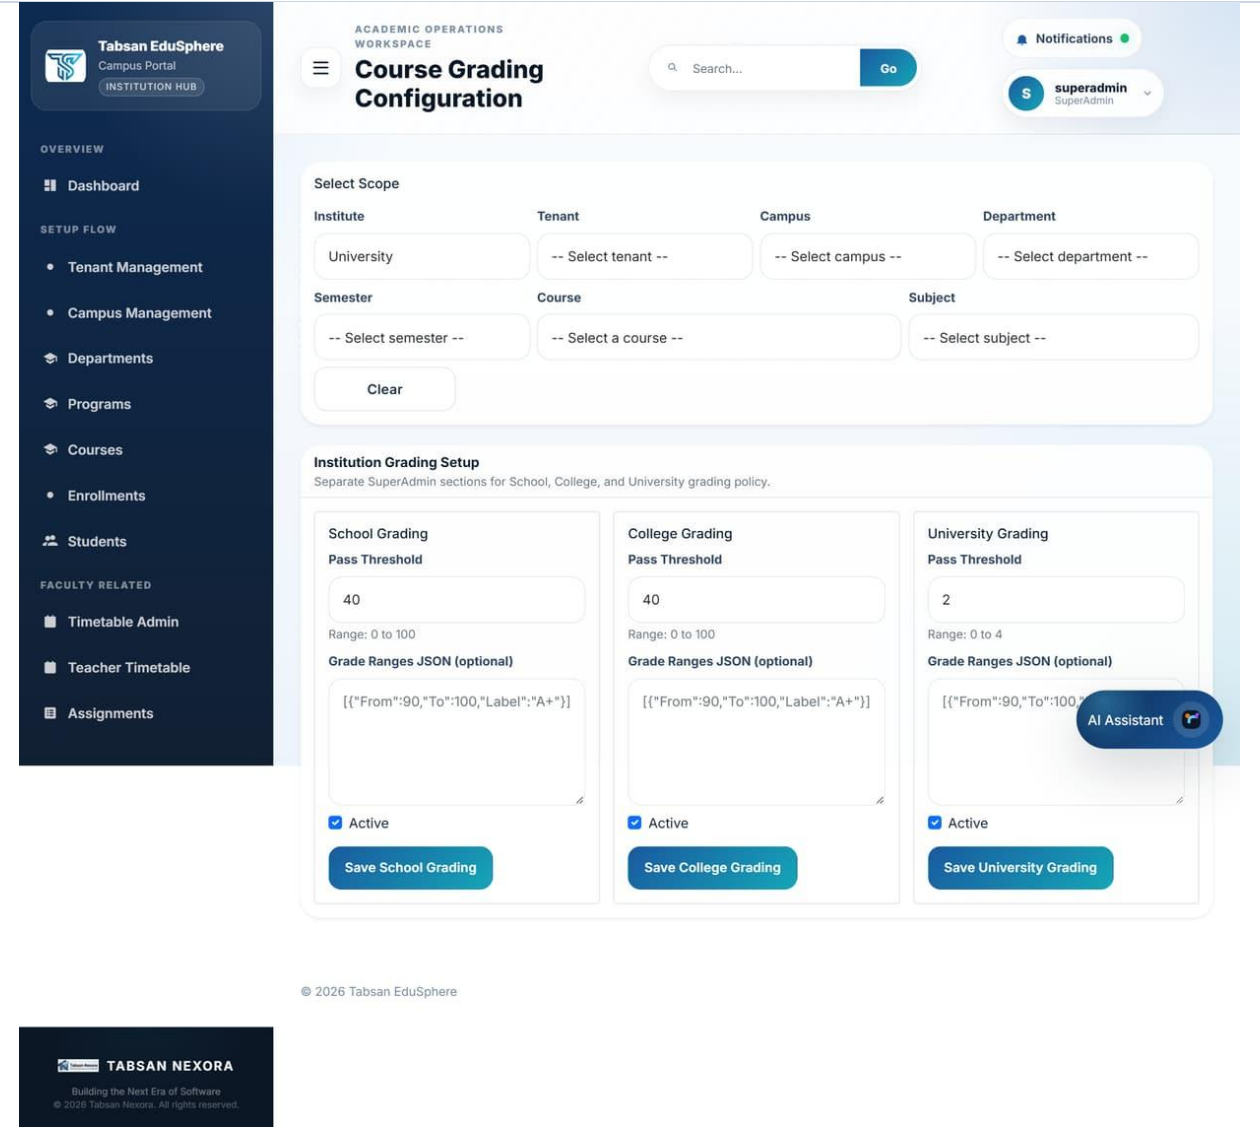

Figure 6.3 Grading Config (SuperAdmin)

6.4 Prerequisites

Available to: SuperAdmin, Admin

Prerequisites stop students enrolling in a course until they have passed another. Each course card shows its prerequisites; click **Add Prerequisite** to choose the required course, or **Remove** to delete one.

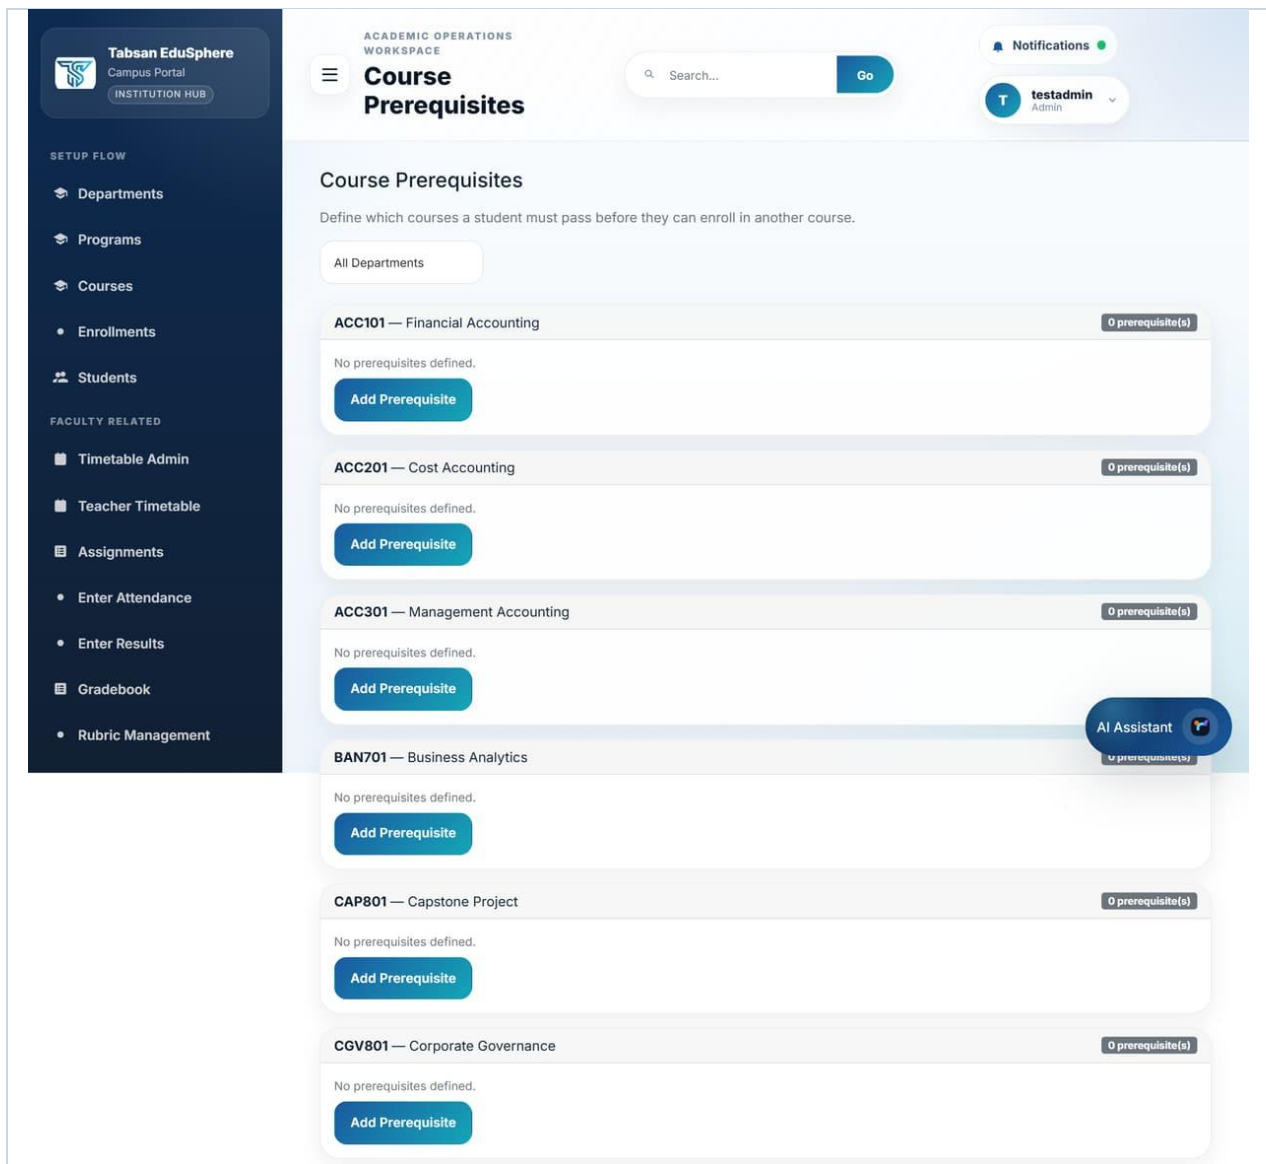

Figure 6.4 Course Prerequisites

6.5 Student Lifecycle

Available to: SuperAdmin, Admin

Student Lifecycle promotes students to the next semester or class and graduates students who complete their program.

Procedure

1. Open **Student Lifecycle** and choose the **Department**.
2. Choose the **Semester** (or **Class**). The students at that level are listed with their standing.
3. Click **Promote** for an eligible student, or **Graduate** for a student in the final level.

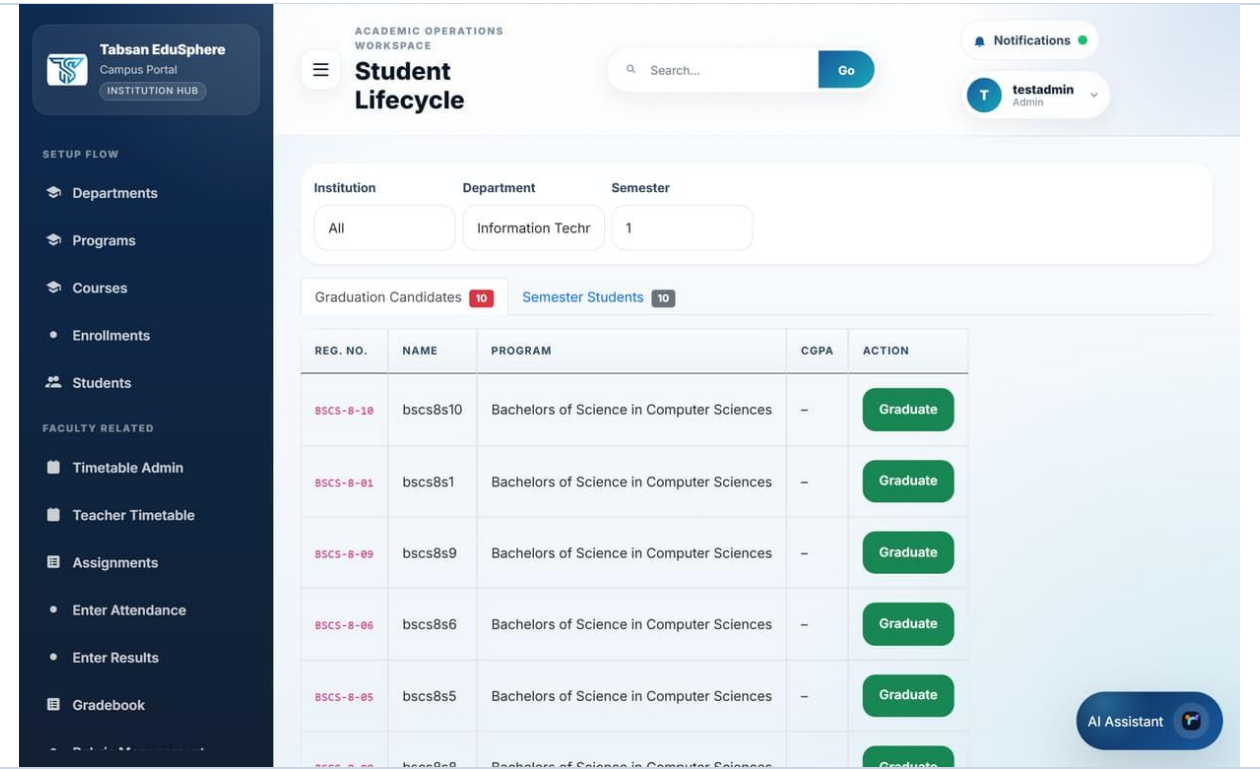

Figure 6.5 Department selected

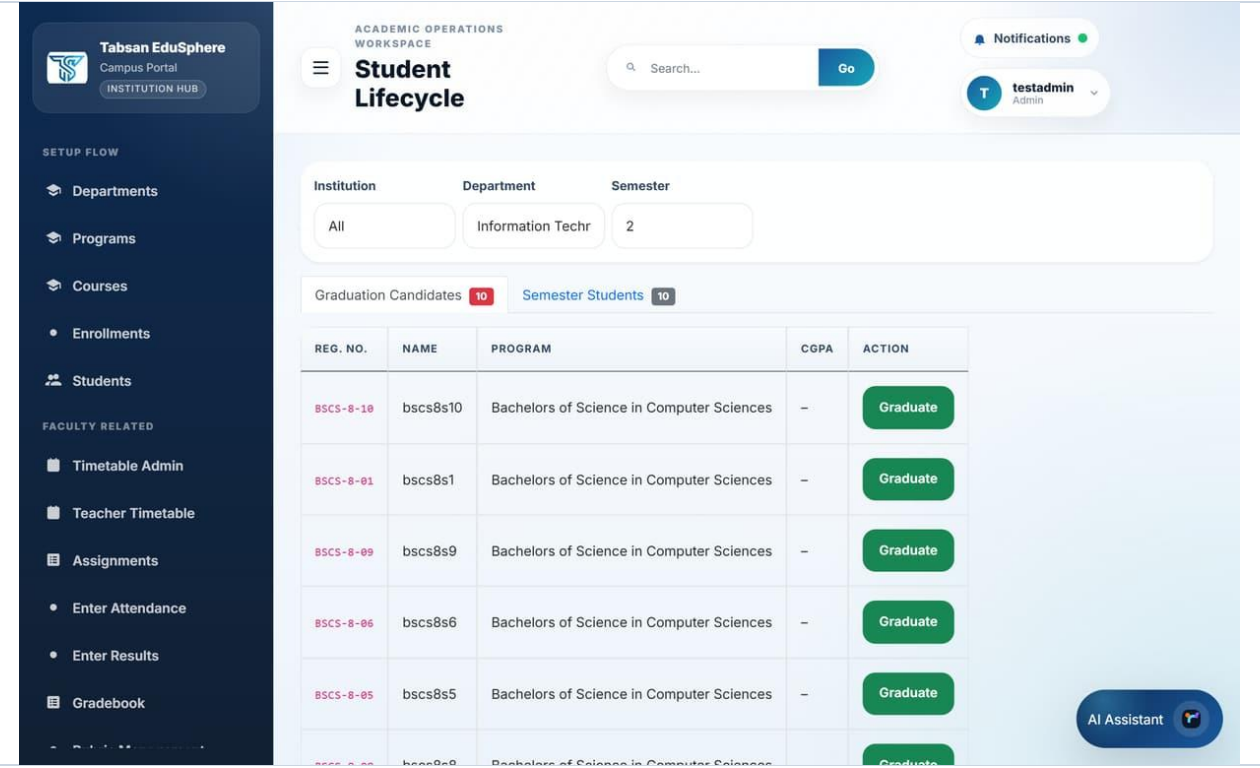

Figure 6.6 Students in the selected semester

IMPORTANT University students must have their FYP created before the final promotion, because promoting past the last semester graduates the student automatically.

6.6 Study Plan

Available to: SuperAdmin, Admin, Faculty

Study plans record the courses a student intends to take in future semesters, for advisor review. Choose the **Department** and **Student**, then click **Create**; add courses to the plan and submit it for advice. Faculty can approve or comment as advisors.

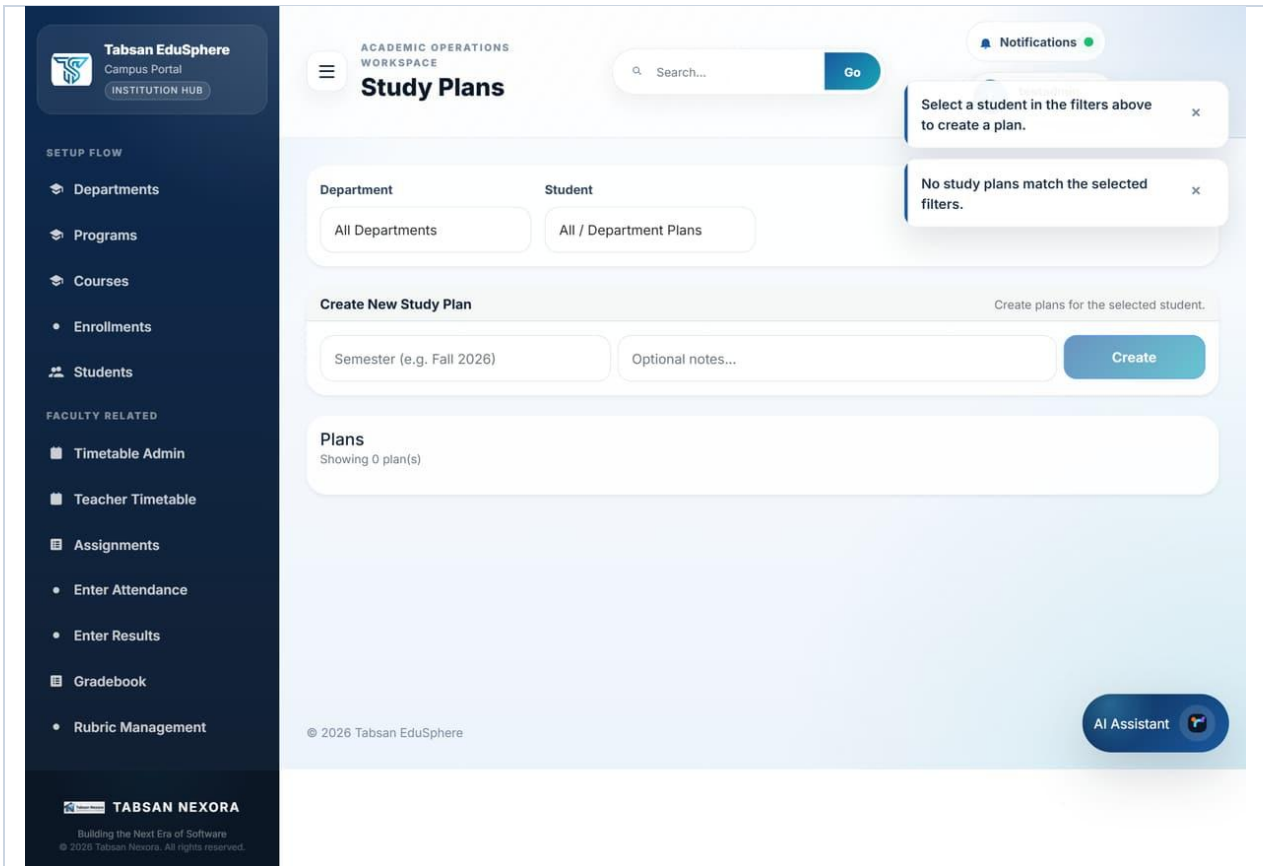

Figure 6.7 Study Plan

6.7 Final Year Projects (FYP)

Available to: SuperAdmin, Faculty

FYP tracks university final-year projects: title, student, supervisor, department, status and result. Faculty supervisors schedule meetings (Upcoming Meetings), enter the FYP result, and mark the project **Complete**. Click + **Create Project** to register a project for a student in the final semester.

Figure 6.8 *FYP (Faculty view)*

7 Graduation and Certificates

7.1 Degree Rules

Available to: SuperAdmin (edit), Admin and Faculty (view)

A degree rule sets what a University program requires: minimum total, core and elective credits, minimum GPA and any required courses. SuperAdmin chooses the **Academic Program**, enters the minimums and clicks **Create Rule**.

The screenshot displays the 'Degree Rules' management page. On the left is a dark sidebar with navigation links: Dashboard, Tenant Management, Campus Management, Departments, Programs, Courses, Enrollments, Students, Timetable Admin, Teacher Timetable, and Assignments. The top header includes the Tabsan EduSphere logo, a search bar, and a user profile for 'superadmin'. The main content area is titled 'Degree Rules' and contains two sections: 'Create New Degree Rule' and 'Existing Rules'.

Create New Degree Rule Form:

Academic Program	Min Total Credits	Min Core Credits	Min Elective Credits	Min GPA
— Select Program —	120	90	30	2.00

A 'Create Rule' button is located below the form.

Existing Rules Table:

PROGRAM	MIN TOTAL	MIN CORE	MIN ELECTIVE	MIN GPA	REQUIRED COURSES	
Bachelor of Business Administration	90	60	10	2.00	None	Delete
Bachelors of Science in Computer Sciences	90	60	10	2.00	None	Delete
Masters in Computer Engineering	30	24	6	2.50	None	Delete
Spanish Language Course	12	12	0	2.00	None	Delete

An 'AI Assistant' chat bubble is visible on the right side of the table.

Figure 7.1 Degree Rules

7.2 Degree Audit

Available to: SuperAdmin, Admin, Faculty, Student

Degree Audit compares a student's completed courses with the program's degree rule. Staff choose a **Student** and click **Load Audit**. Students see their own audit, with completed courses and any unmet requirements.

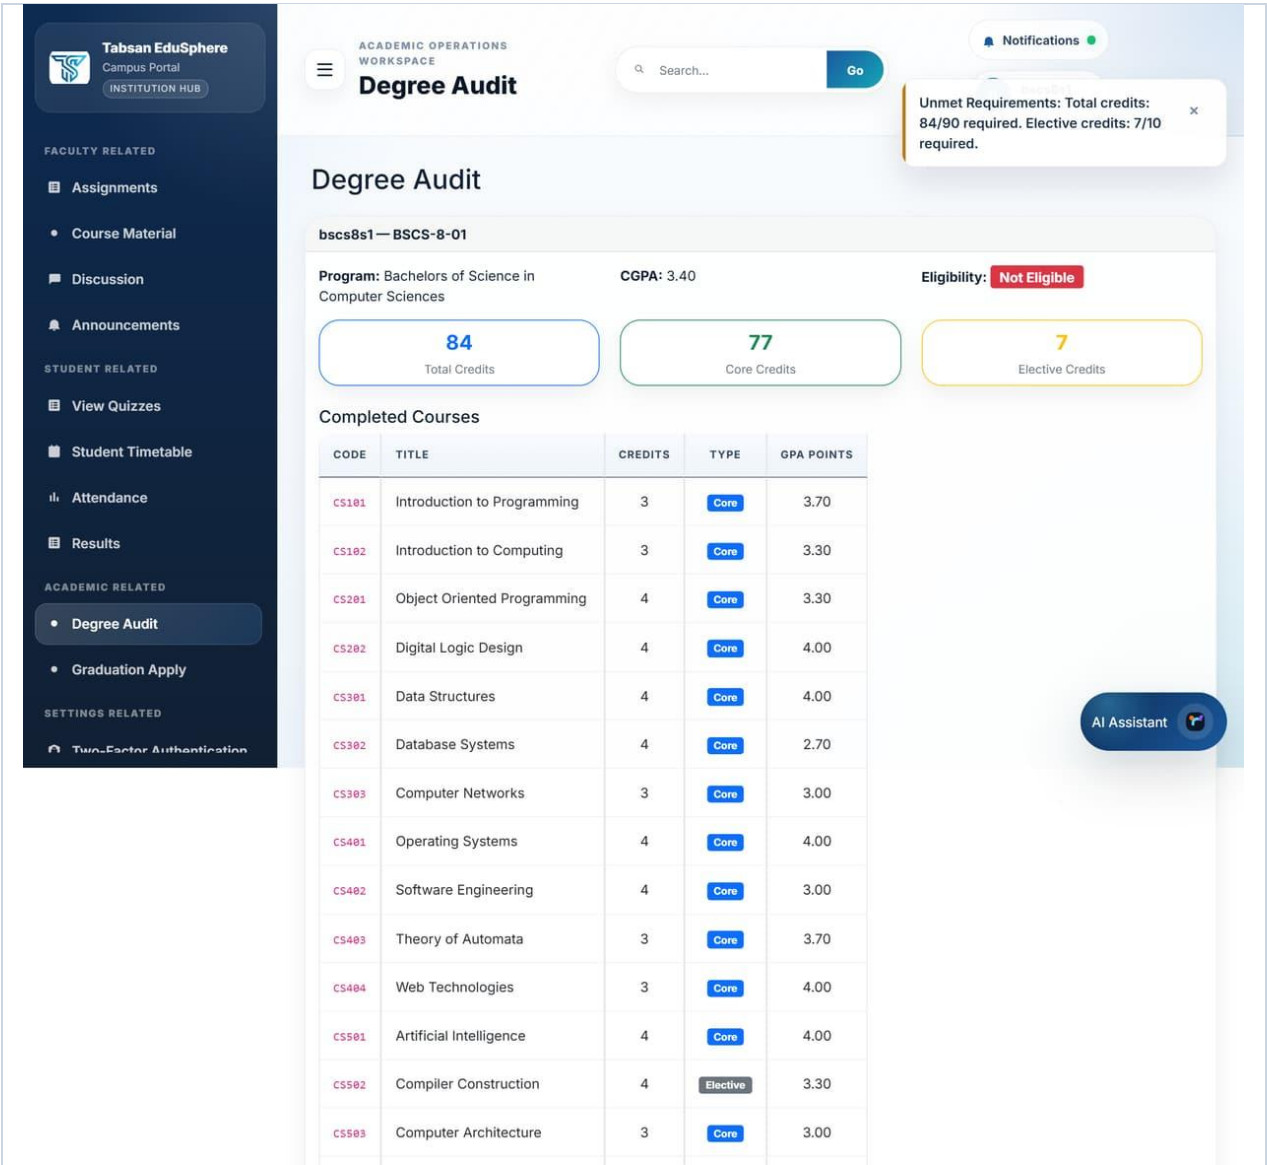

Figure 7.2 Degree Audit (Student view)

7.3 Graduation Eligibility

Available to: SuperAdmin, Admin, Faculty

Lists students with credits earned, CGPA, unmet requirements and status. Click **View Audit** for the detail behind a student's status. Faculty see the students of their own departments.

7.4 Applying for graduation (Students)

Available to: Student

An active University student in the final semester with a completed FYP can apply for graduation.

Procedure

1. Open **Graduation Apply**.
2. Optionally add a **Personal Note**.
3. Click **Submit Application**. Track its status on the same page.

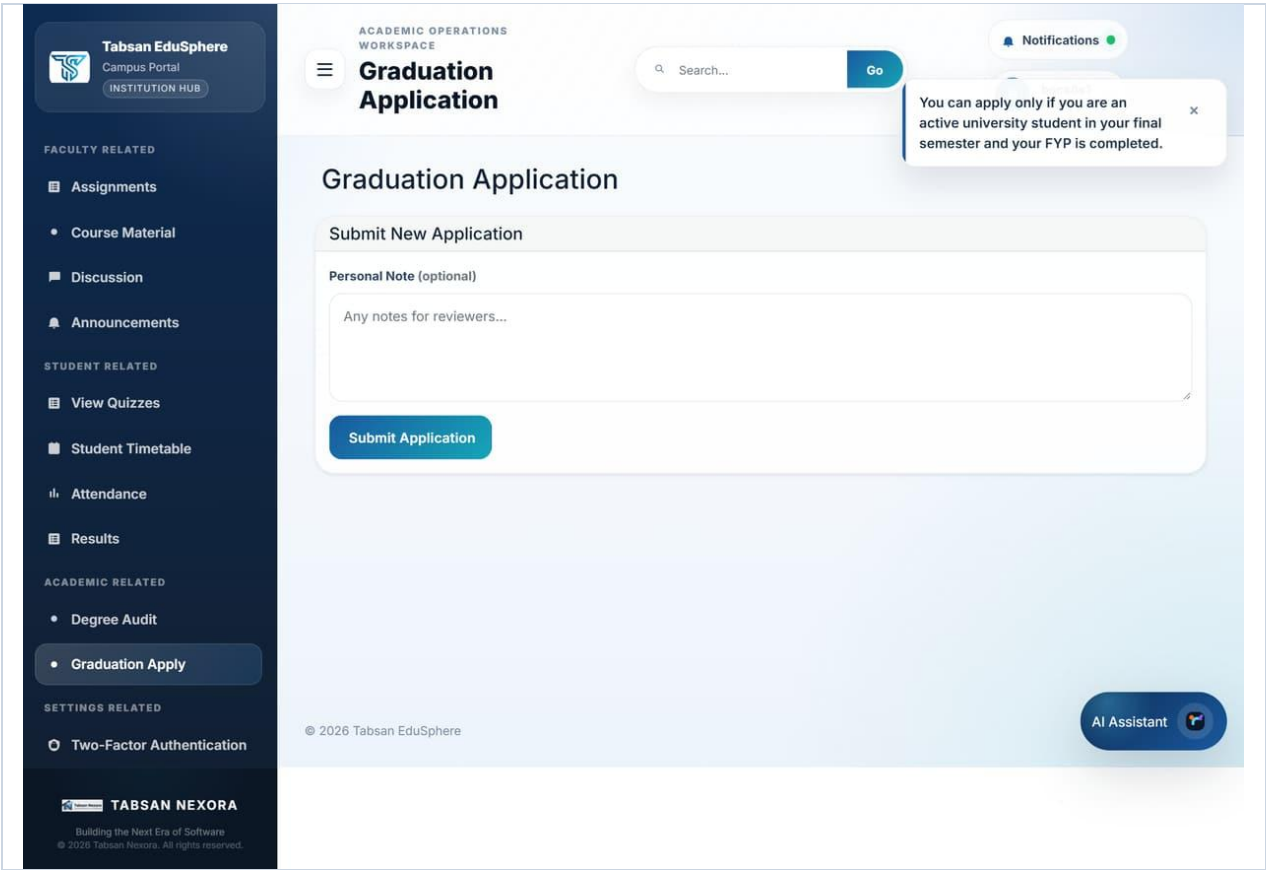

Figure 7.4 Graduation Application (Student)

7.5 Graduation Applications

Available to: SuperAdmin, Admin, Faculty

Applications are approved in stages: Faculty, then Admin, then SuperAdmin (final). Any approver can reject an application. Filter by **Status** and **Department**, click **Filter**, then **View** an application to approve or reject it. Once finally approved, the graduation certificate becomes available.

7.6 Generate Certificates

Available to: SuperAdmin, Admin, Faculty

Generates completion, degree and transcript certificates for students.

Procedure

1. Open **Generate Certificates** and filter by institution, department, course and class; use **Search Students** to find a student, then click **Apply**.
2. Click **Generate** on a student's row to produce the certificate.
3. Under **Certificate Templates**, use **Download Default** to get the standard template or **Import Template** to upload your institution's design.

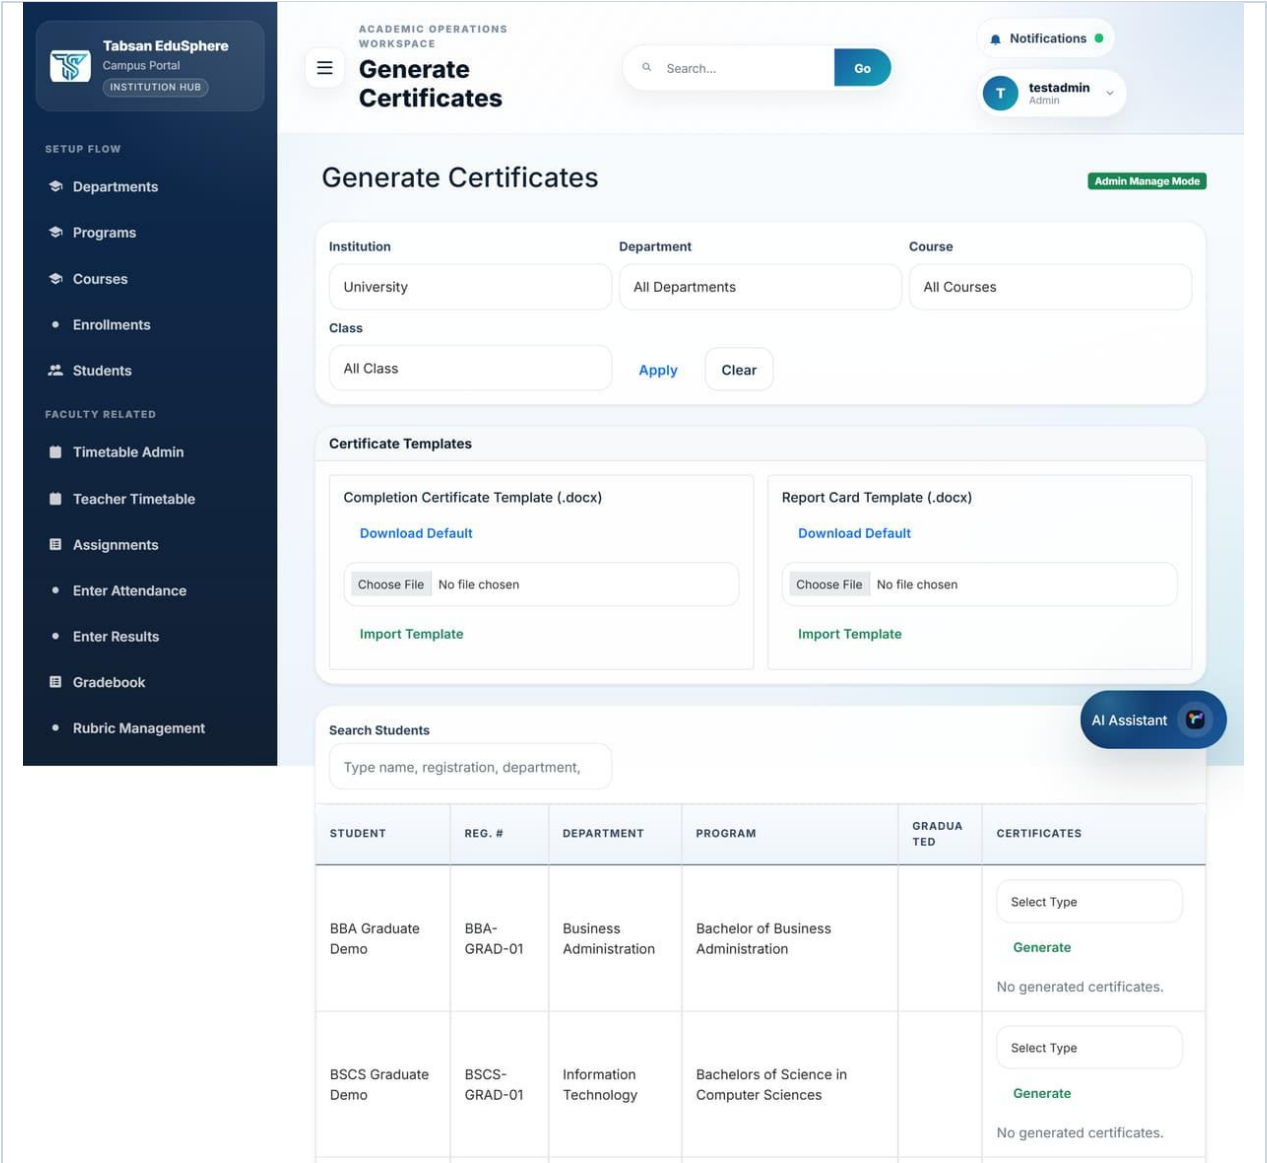

Figure 7.6 Generate Certificates

8 Reports and Analytics

8.1 Report Center

Available to: SuperAdmin, Admin, Faculty, Finance

Report Center lists the reports your role may run. Finance users see only the Payment Summary; students do not have reports.

Report	What it shows
Attendance Summary	Attendance totals and percentages by offering and student.
Enrollment Summary	Enrolment counts by department, program and semester.
FYP Status Report	Final year projects with supervisor, status and result.
GPA & CGPA Report	Semester GPA and CGPA per student (University only).
Low Attendance Warning	Students below the attendance threshold (default 75%).
Payment Summary	Fee receipts by status and amount.
Result Summary	Marks and grades by subject and exam type.
Semester Results	Results for a whole semester or class.
Student Transcript	A student's full academic record.

Procedure

1. Open **Report Center** and click a report.
2. Choose the filters (for example **Department** and **Program**) and click **Filter**.
3. Review the results on screen, then click **Excel**, **CSV** or **PDF** to download.

8.2 Analytics

Available to: SuperAdmin, Admin, Faculty, Finance

Analytics shows performance, attendance and assignment trends with charts and a student table. Choose the institute, campus, department, course and semester/class, then click **Apply Filters**. **Reset** clears the filters.

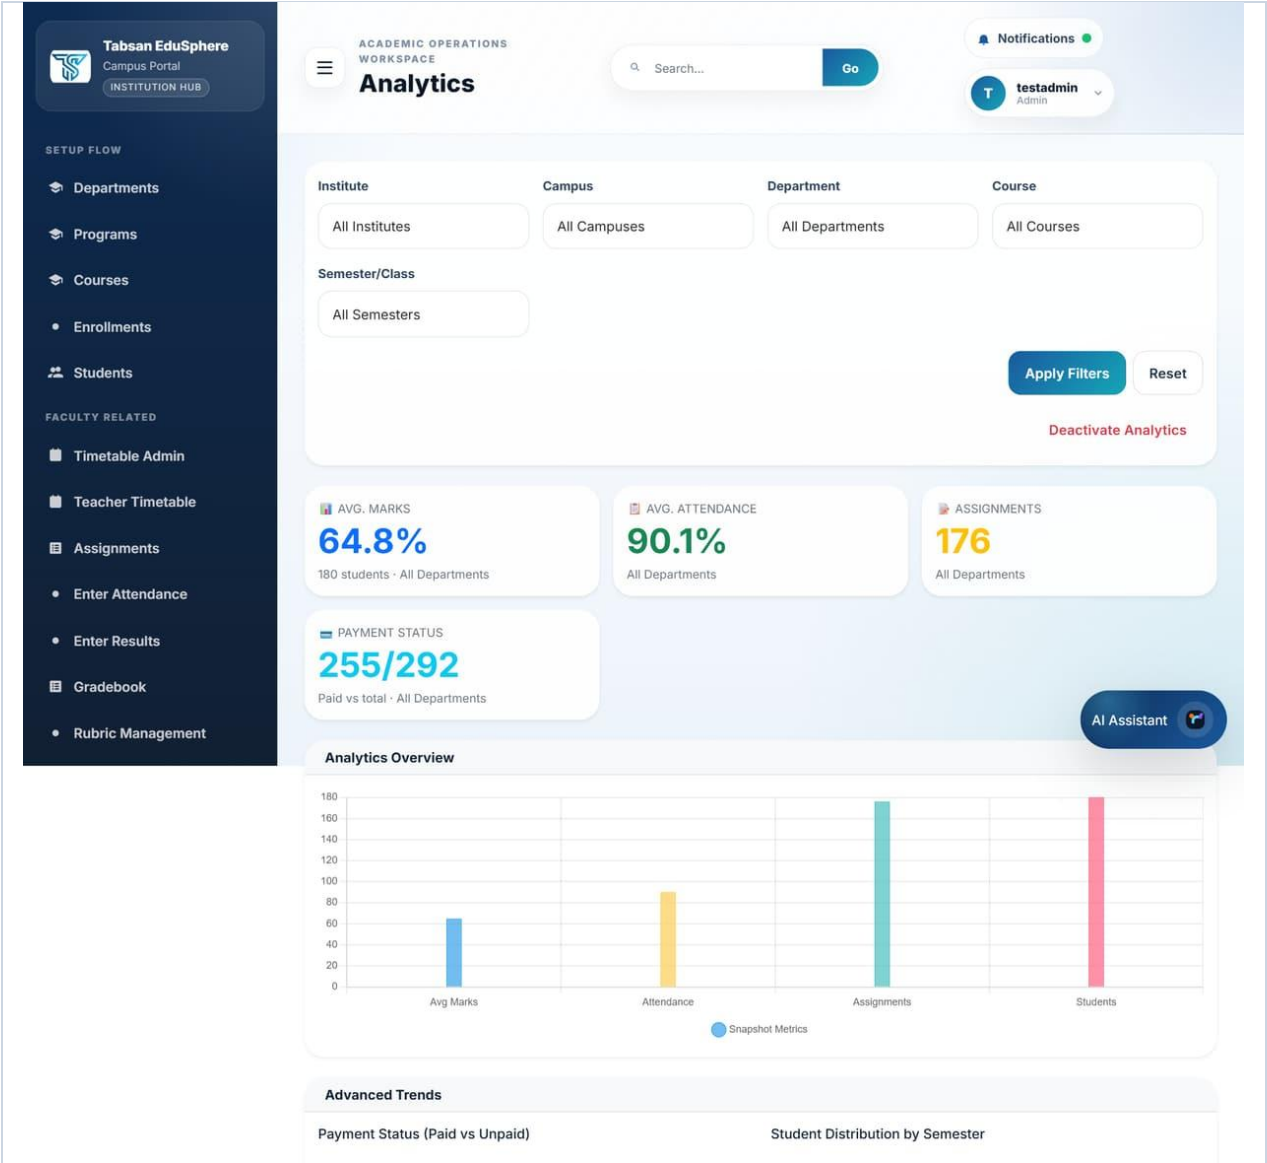

Figure 8.4 Analytics overview

9 Finance

9.1 Fee receipts (Payments)

Available to: SuperAdmin, Admin, Finance

Payments manages fee receipts from creation to confirmation.

Procedure

1. Open **Payments**. All Receipts lists each receipt with student, receipt number, amount, due date and status.
2. Under **Create Fee Receipt**, choose the **Student**, enter the **Amount**, **Receipt No**, **Description** and **Due Date**.
3. Click **Create**. The receipt starts as Pending.
4. When the student has paid, open the receipt and **Confirm** it. Use **Cancel** for receipts issued in error.
5. For many receipts at once, click **Export Template**, fill in the CSV and use **Import CSV**.

10 Users, Communication and Personal Settings

10.1 User Import and creating users

Available to: SuperAdmin, Admin

User Import creates accounts for students, faculty, admins and finance staff, one at a time or in bulk from CSV.

Procedure

1. Open **User Import**.
2. Bulk: download **faculty-admin-import-template.csv** or **students-import-template.csv**, fill it in (Username, Email and Role are required), choose it in **CSV File** and click **Upload and Import**. Review the import report.
3. Single user: in **Create Single User**, enter the **Username**, **Email**, **Full Name**, **Role**, **Institution Type**, **Department** and **Course**, optionally a mobile number, address and profile photo.
4. Click **Create User**. New users must change their password at first sign-in.

CSV File

Choose File No file chosen

Upload and Import

Create Single User

Manually create one user at a time. Imported accounts use Username as temporary password and must change it at first login.

Username * Email * Full Name

e.g. john.doe e.g. john@tabsan.loc e.g. John Doe

Role * Institution Type Mobile Number

Student — Optional — e.g. +61412345678

Department * Course *

— Select Department — — Select Course —

Use one of the official templates before upload: faculty-admin-import-template.csv students-import-template.csv Required columns: Username, Email, Role Optional columns: FullName, DepartmentId, InstitutionType, MobileNumber, CampusAssignments Accepted file type: .csv only Role values: Admin, Faculty, Student, Finance If you provide DepartmentId, use valid IDs from your current database. If you provide CampusAssignments, use pipe-separated campus GUIDs (example: guid1|guid2). Imported accounts use Username as temporary password and must change it at first login.

AI Assistant

Figure 10.1 User Import

The screenshot displays the 'User Import' section of the Tabsan EduSphere interface. On the left is a dark sidebar with navigation links: 'Setup Flow' (Departments, Programs, Courses, Enrollments), 'Students', and 'Faculty Related' (Timetable Admin, Teacher Timetable, Assignments, Enter Attendance, Enter Results, Gradebook, Rubric Management). The main content area is titled 'User Import' under 'ACADEMIC OPERATIONS WORKSPACE'. It features a search bar and a 'Go' button. Below this, there are two primary forms: 'Import Users From CSV' and 'Create Single User'. The 'Import Users From CSV' form includes a link to 'Create Sample CSV In User Import Sheets', a 'CSV File' upload section with a 'Choose File' button and 'No file chosen' text, and an 'Upload and Import' button. The 'Create Single User' form has a descriptive note: 'Manually create one user at a time. Imported accounts use Username as temporary password and must change it at first login.' It contains several input fields: 'Username' (jane.doe), 'Email' (jane.doe@tabsan.loc), 'Full Name' (Jane Doe), 'Role' (Student), 'Institution Type' (Optional), 'Mobile Number' (e.g. +61412345678), 'Department' (Select Department), 'Course' (Select Course), 'Campus Assignments' (Pipe-separated GUIDs: id|id2), and 'Address' (e.g. 123 Main St, City). There is also a 'Profile Photo' upload section with a 'Choose File' button and 'No file chosen' text, and a note 'JPG or PNG, max 2MB'. A 'Create User' button is at the bottom of the form. A notification box on the right provides instructions on using official templates for CSV imports, listing required and optional columns and accepted file types. An 'AI Assistant' button is visible in the bottom right corner of the main content area. The footer shows '© 2026 Tabsan EduSphere'.

Figure 10.2 Create Single User form

10.2 User Settings

Available to: SuperAdmin, Admin, Faculty, Student, Finance

Every user can update their own email, mobile number and address, upload a profile photo, and change their password (current password, new password, confirm). Admins also see a scoped user directory where they can edit other users' details and reset a password to the default.

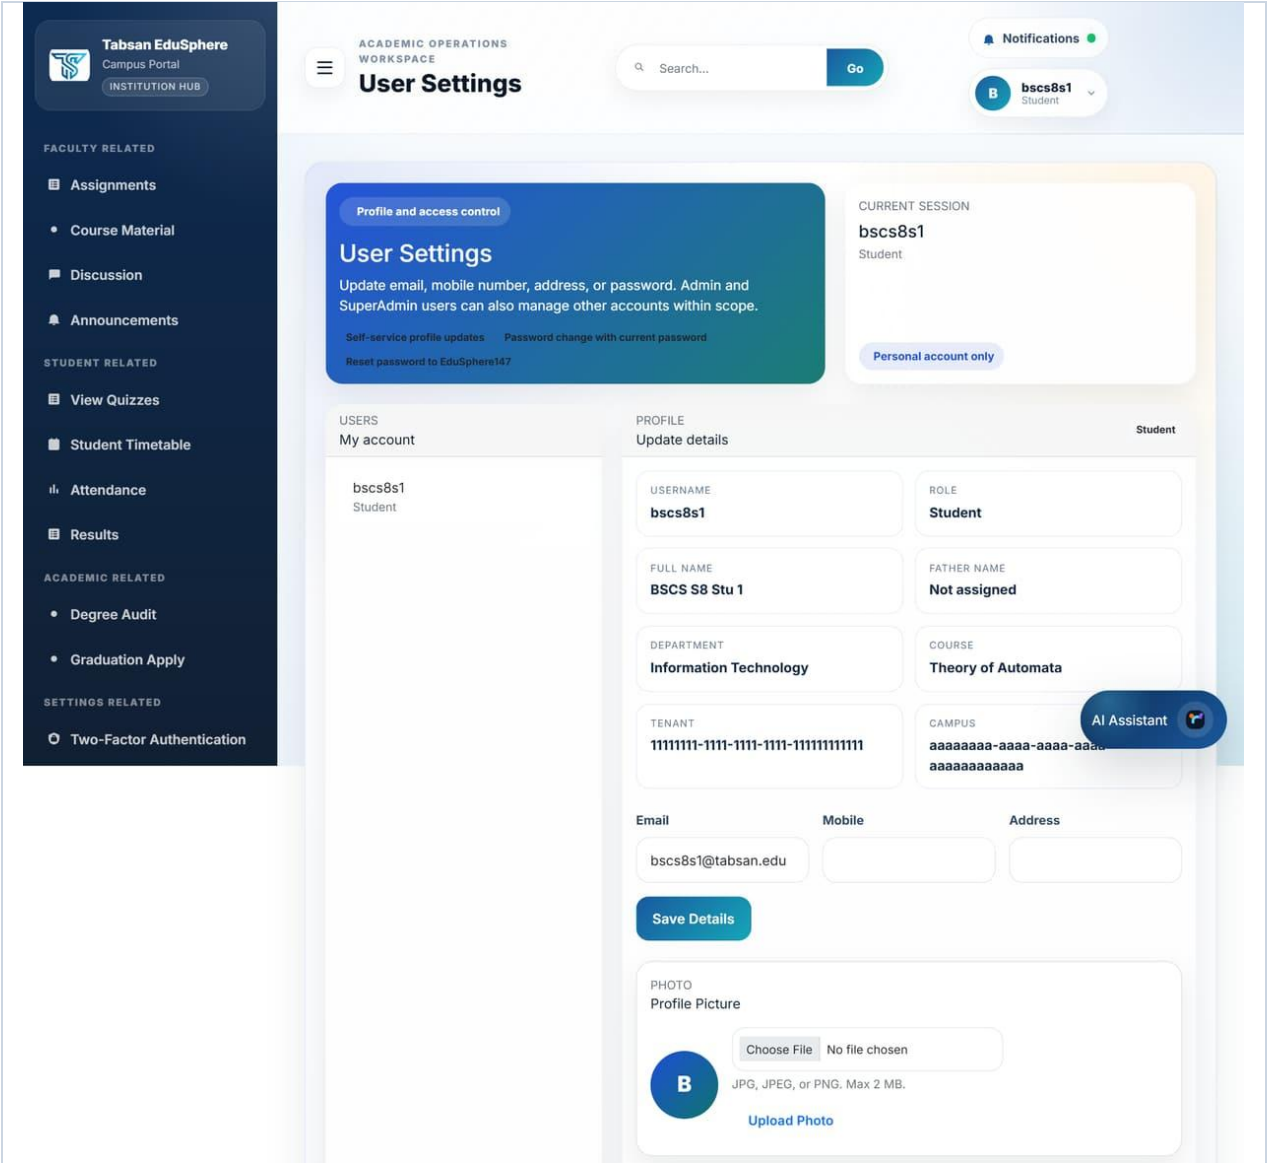

Figure 10.3 User Settings (Student view)

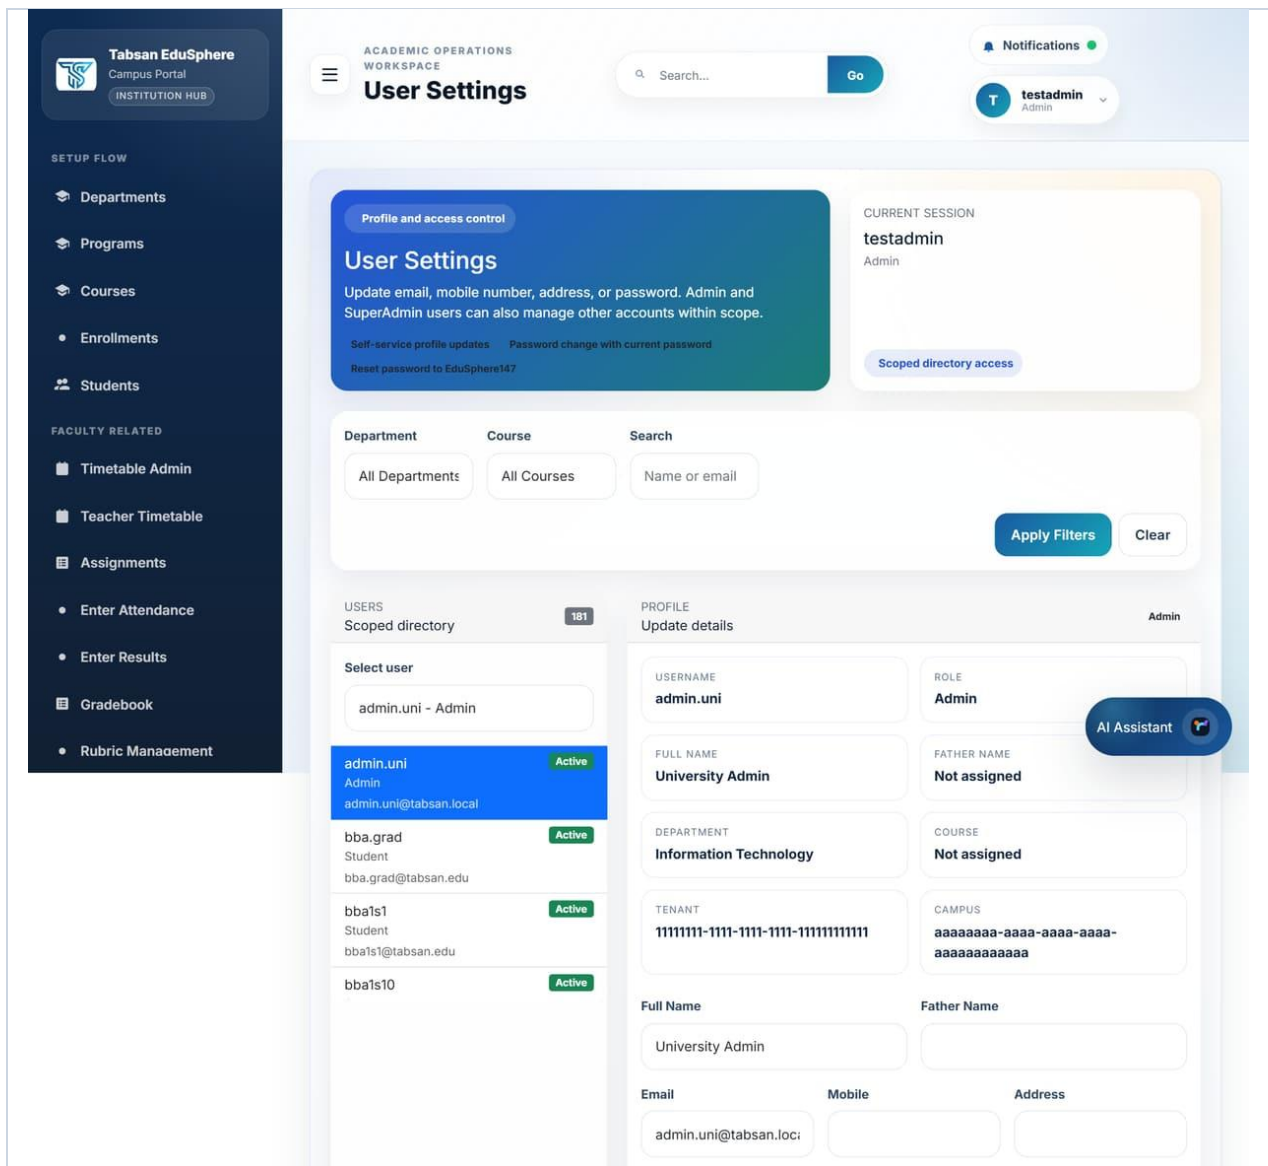

Figure 10.4 User Settings with the user directory (Admin view)

10.3 Two-Factor Authentication

Available to: SuperAdmin, Admin, Faculty, Student, Finance

Two-factor authentication adds a 6-digit code from an authenticator app (Microsoft Authenticator, Google Authenticator or Authy) to your sign-in.

Procedure

1. Open **Two-Factor Authentication** from the profile menu.
2. Click **Start 2FA Setup** and scan the QR code with your authenticator app (or type the manual key).
3. Enter the code shown in the app to verify and enable 2FA. Keep the recovery codes in a safe place.
4. To turn 2FA off, enter a current code and disable it; the old secret is deleted.

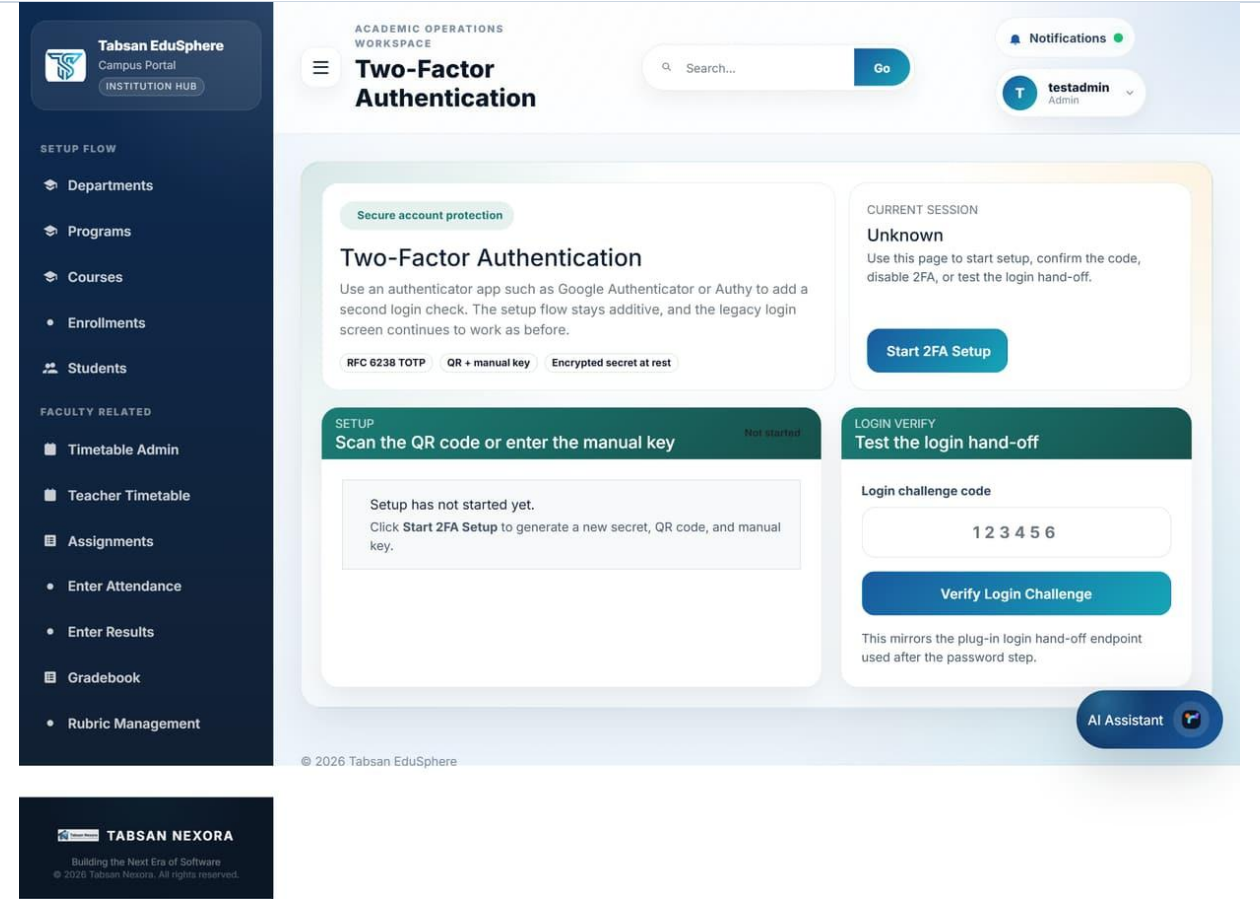

Figure 10.5 Two-Factor Authentication

10.4 Notifications

Available to: SuperAdmin, Admin, Faculty, Student, Finance

The Inbox lists notifications such as new announcements, published results and approvals. Click **Mark All Read** to clear the unread indicator.

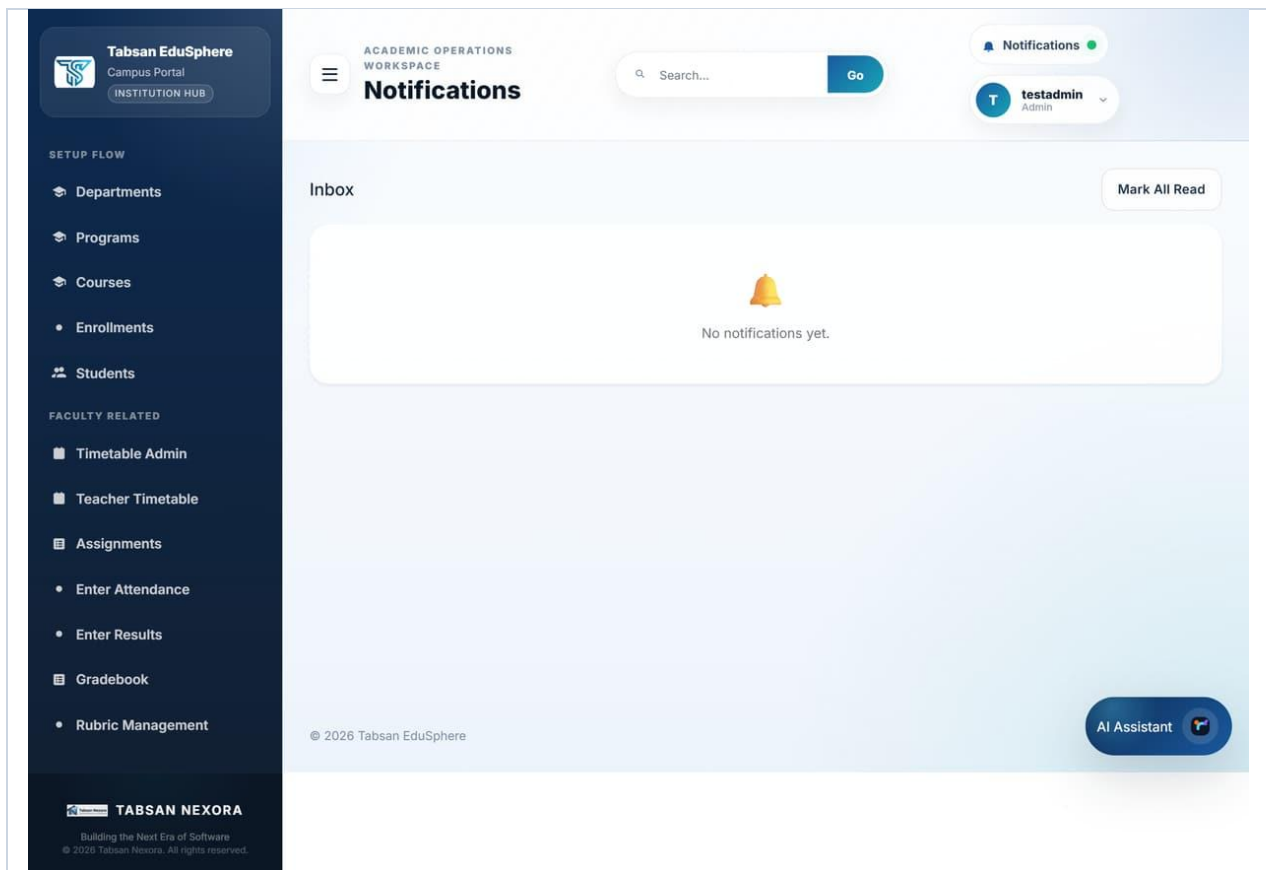

Figure 10.6 Notifications inbox

10.5 Helpdesk

Available to: SuperAdmin, Admin, Faculty, Student, Finance

Helpdesk is the support ticket system. Tickets move through Open, In Progress, Resolved and Closed.

Procedure

1. Open **Helpdesk**. Use the status tabs (All, Open, InProgress, Resolved, Closed) to filter.
2. Click **New Ticket**.
3. Choose the **Department** (optional) and **Category**, enter a **Subject** and **Details**, and click **Submit Ticket**.
4. Open a ticket with **View** to read replies and respond.

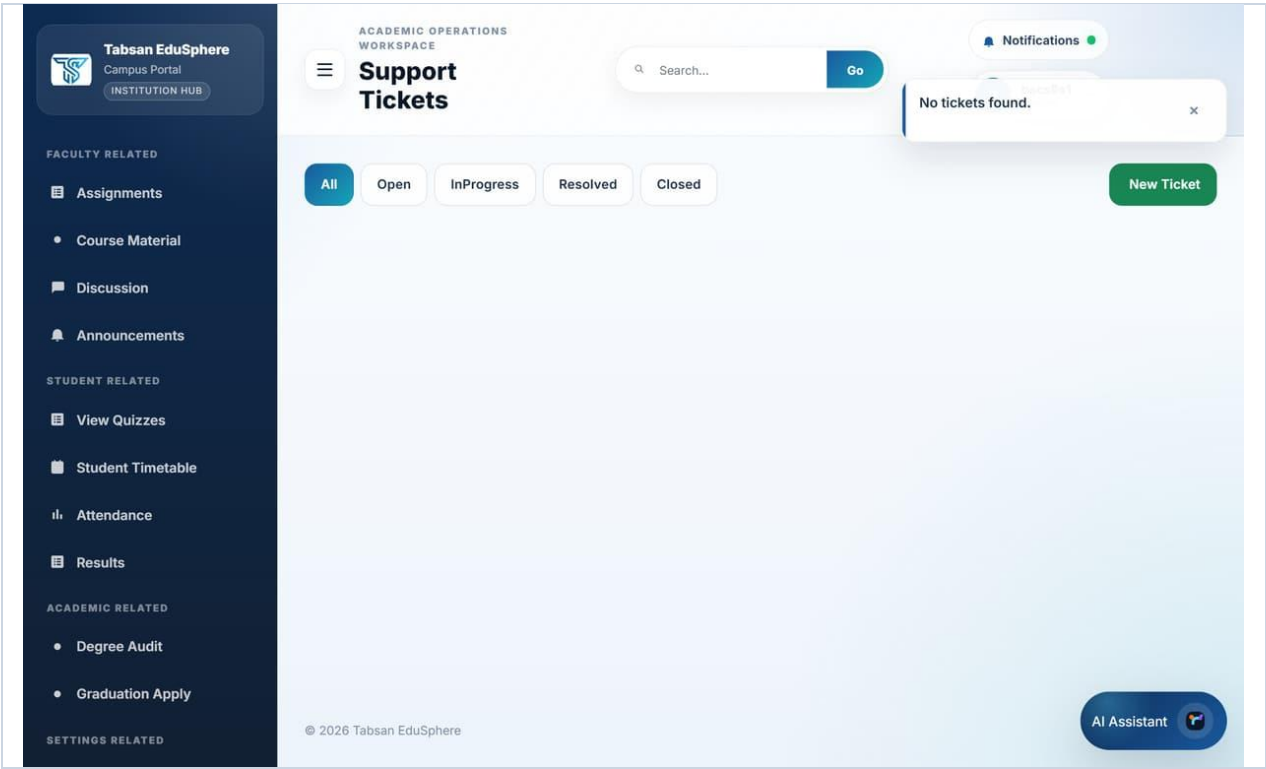

Figure 10.7 Helpdesk ticket queue

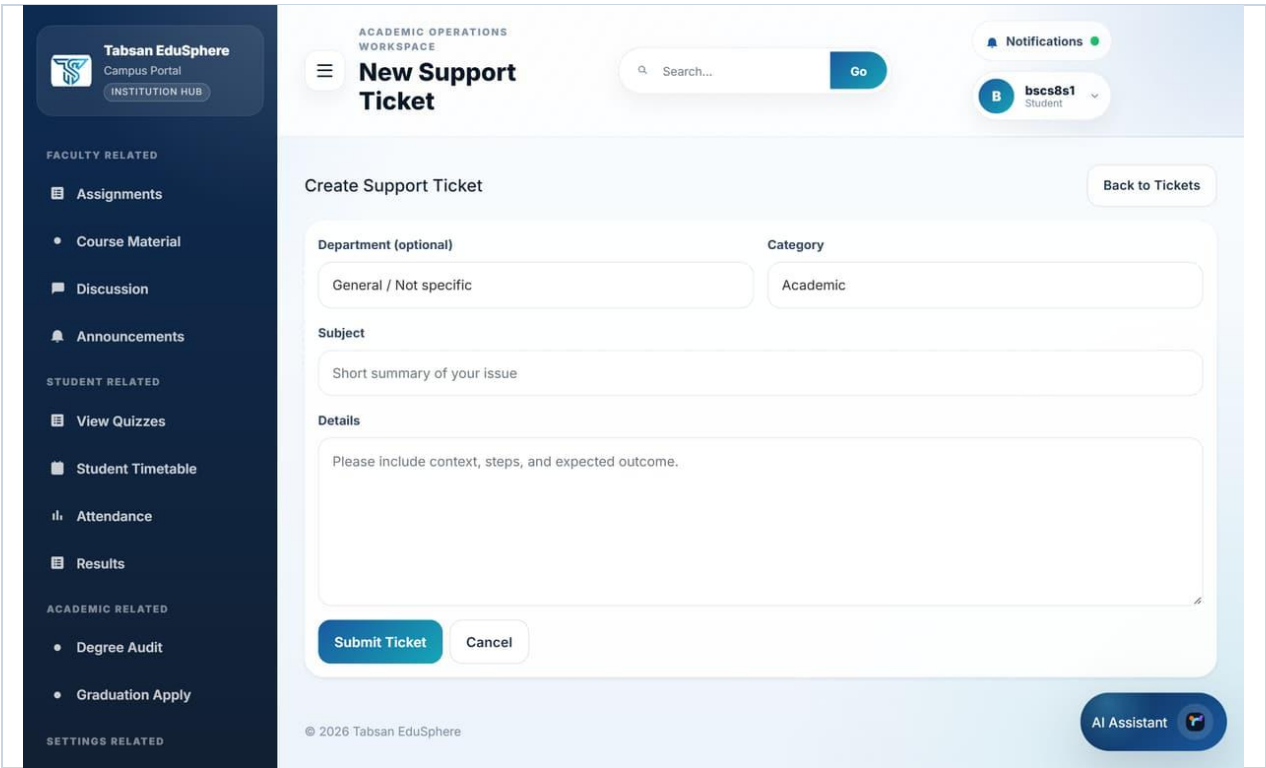

Figure 10.8 New Support Ticket form

10.6 Theme Settings

Available to: SuperAdmin, Admin, Faculty, Student, Finance

Choose a colour theme for the portal. Click a theme to preview it, then save.

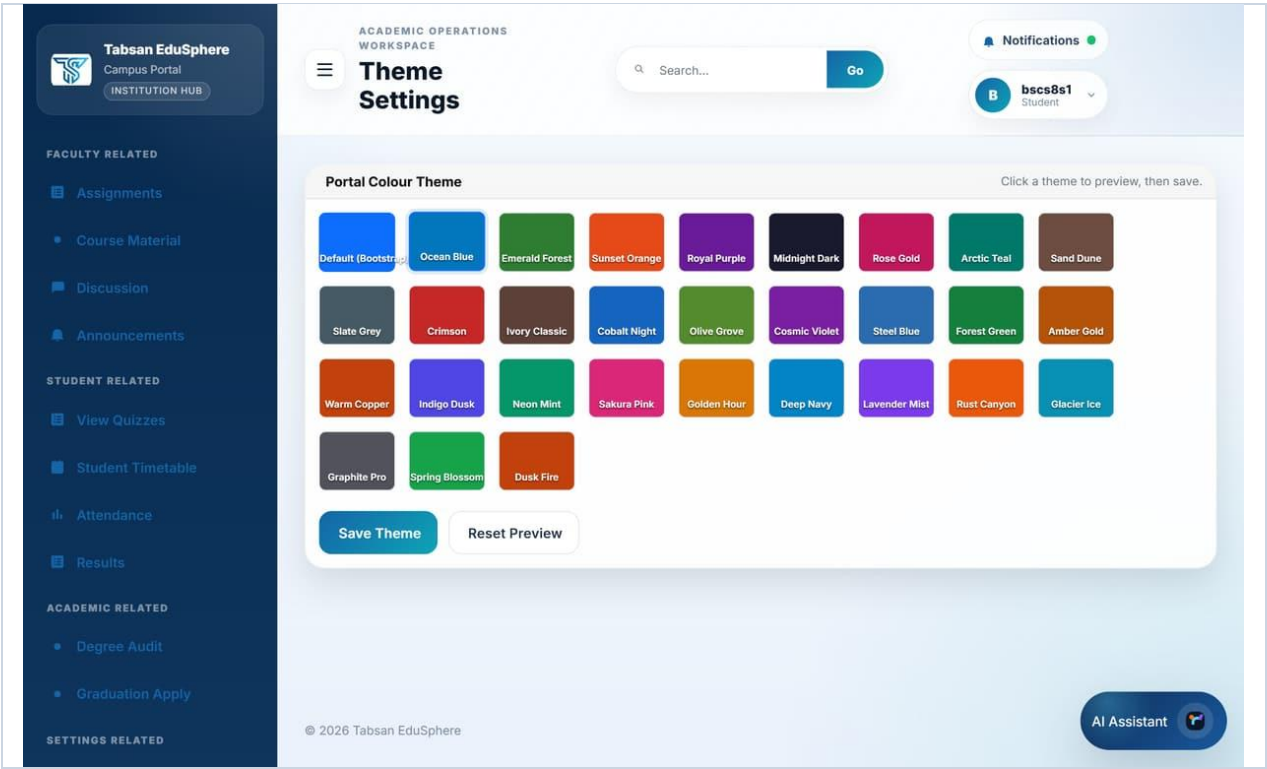

Figure 10.9 Theme Settings with a theme previewed

11 SuperAdmin Administration

The pages in this chapter are available only to SuperAdmin users.

11.1 Dashboard

Available to: SuperAdmin

The SuperAdmin Dashboard explains the workspace modes and holds the API connection settings (API Base URL, access token and default department). Change these only on instruction from your technical team.

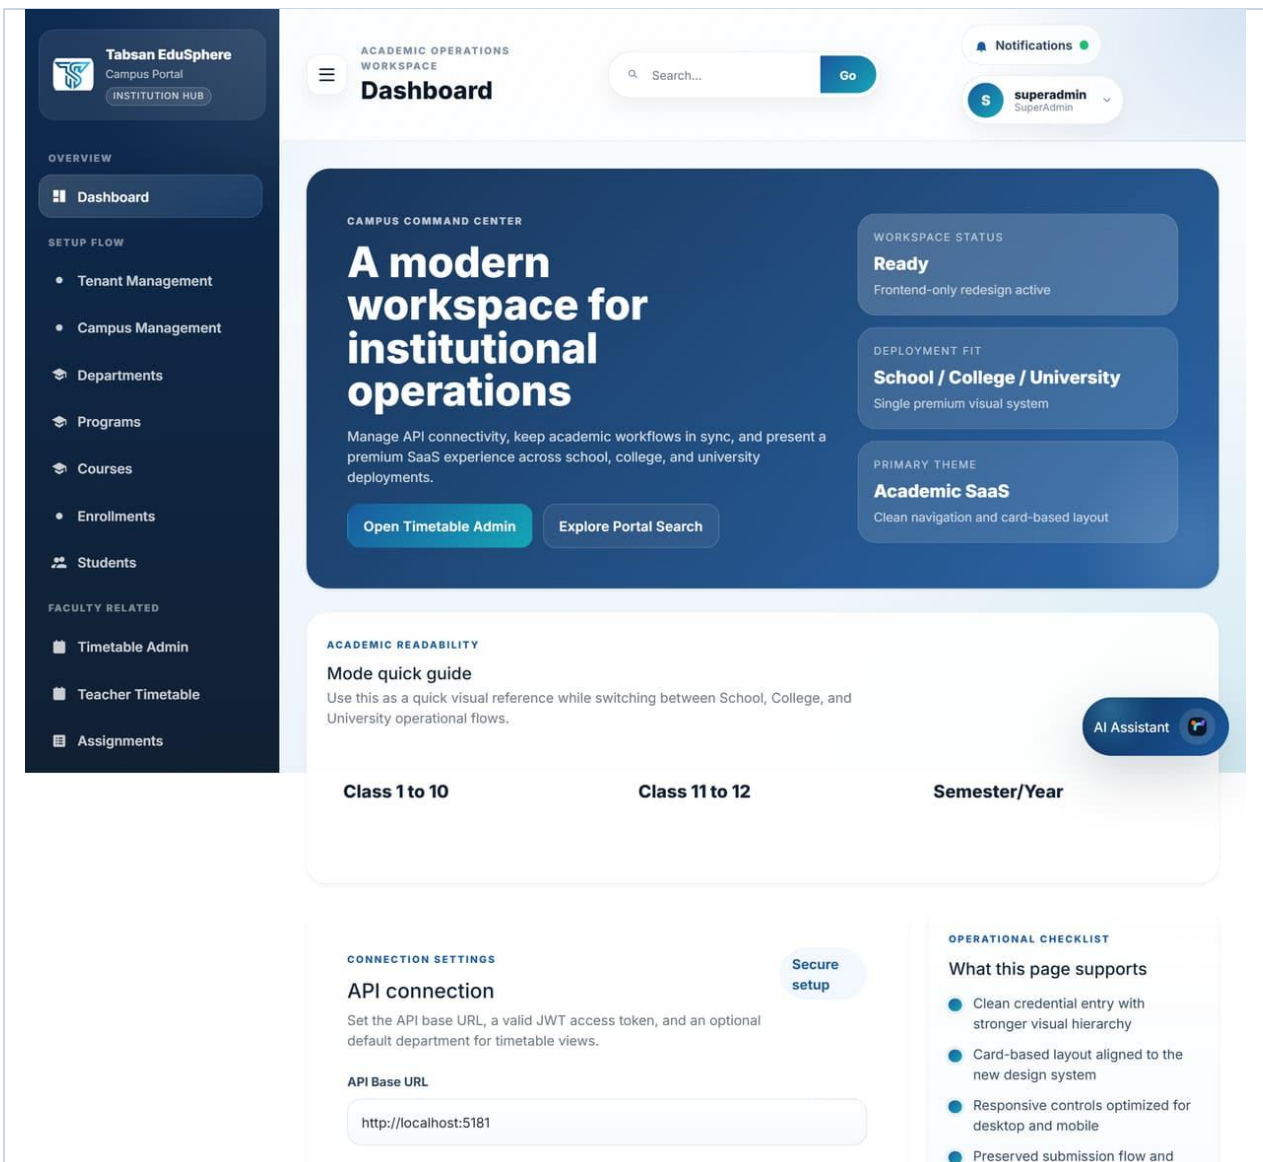

Figure 11.1 SuperAdmin Dashboard

11.2 Tenant and Campus Management

Available to: SuperAdmin

Tenants separate institutions (for example University, College and School); each tenant has one or more campuses. Create a tenant with a **Code** and **Name**, then click **Manage Campuses** to add campuses. Deactivate tenants or campuses that are no longer used.

AI Assistant

Figure 11.6 *Sidebar Settings*

11.6 Report Settings

Available to: SuperAdmin

Lists the report definitions (nine by default) and lets SuperAdmin create new definitions, activate or deactivate them, and choose which roles may run each report.

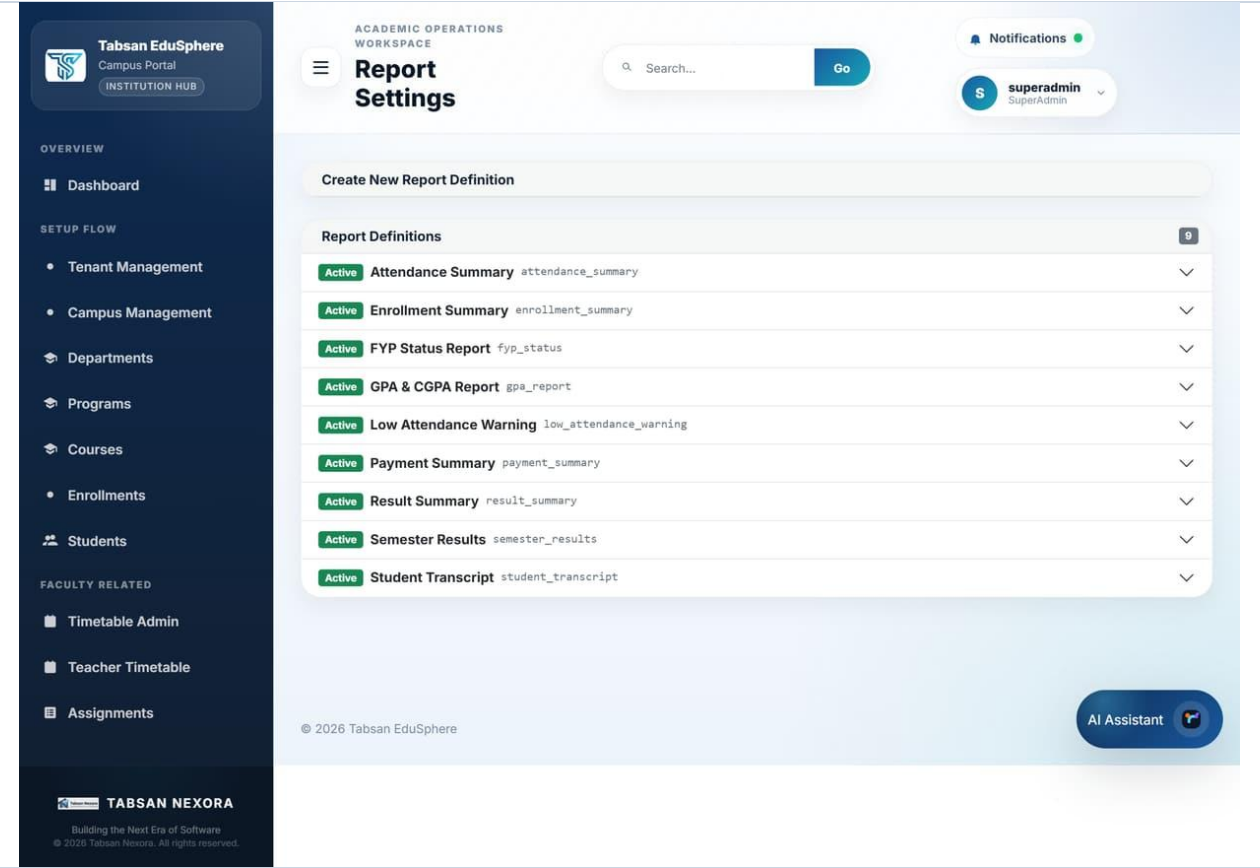

Figure 11.7 Report Settings

11.7 Dashboard Settings (Branding)

Available to: SuperAdmin

Sets the institution name, portal subtitle, footer text, logo, privacy policy link and text, and the portal font family and size. Click **Save Branding**.

The screenshot displays the 'Dashboard Settings' page for 'Portal Branding'. The left sidebar contains navigation links for Overview, Setup Flow, and Faculty Related. The main content area is titled 'Dashboard Settings' and includes a search bar and user profile. The 'Portal Branding' section contains the following fields and options:

- University / Institution Name:** Tabsan EduSphere. Description: Displayed in the sidebar brand area and page titles.
- Portal Subtitle:** Campus Portal. Description: Sub-line shown below the brand name in the sidebar.
- Footer Text:** © 2026 Tabsan EduSphere. Description: Shown in the page footer. Tip: include the © symbol and year.
- Portal Logo:** A logo icon is shown. Below it is a 'Choose File' button and 'No file chosen' text. Description: Optional. PNG, JPG, SVG or WebP, max 2 MB. Saved in database settings and shown in sidebar branding.
- Privacy Policy URL:** https://yoursite.com/privacy. Description: Optional external link. If policy text is entered below, the portal uses its own Privacy page instead.
- Privacy Policy Text:** A large text area for entering privacy policy content. Description: Displayed in the General → Privacy page inside the portal.
- Font Family:** Default (system). Description: Base font used across the portal.
- Font Size:** Default (16px). Description: Base body text size.

At the bottom, there are 'Save Branding' and 'Back to Dashboard' buttons, and a 'Live Preview' section showing the current branding.

Figure 11.8 Dashboard Settings – portal branding

11.8 Institution Policy

Available to: SuperAdmin

Turns the University, School and College institution types on or off for the installation, within what the license allows. Click **Save Policy**.

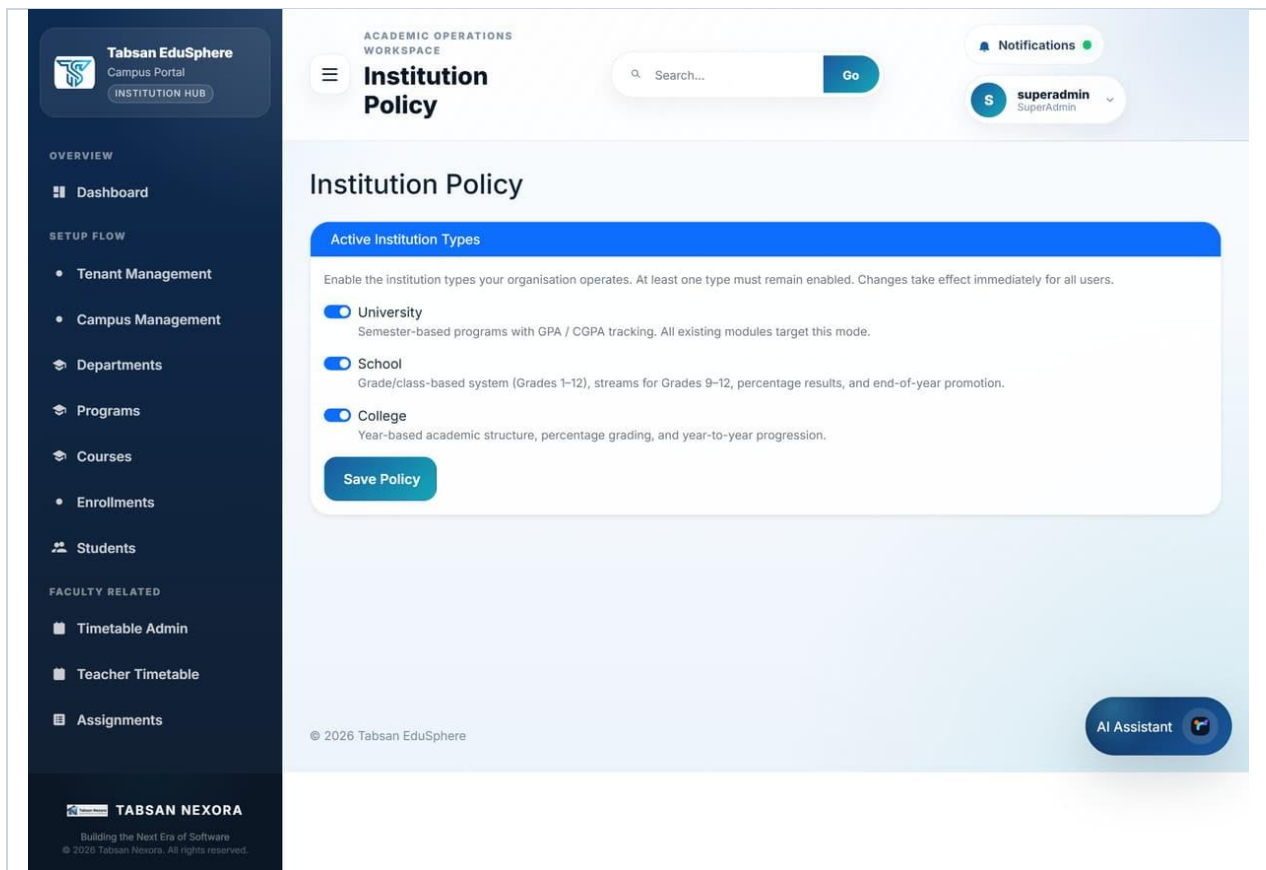

Figure 11.9 Institution Policy

11.9 License Update

Available to: SuperAdmin

Shows the current license (status, type, activation date and expiry) and uploads a new license file.

Procedure

1. Open **License Update**.
2. Under **Upload License File**, choose the .tablic file supplied by Tabsan.
3. Click **Upload & Activate**. The Current License table updates.

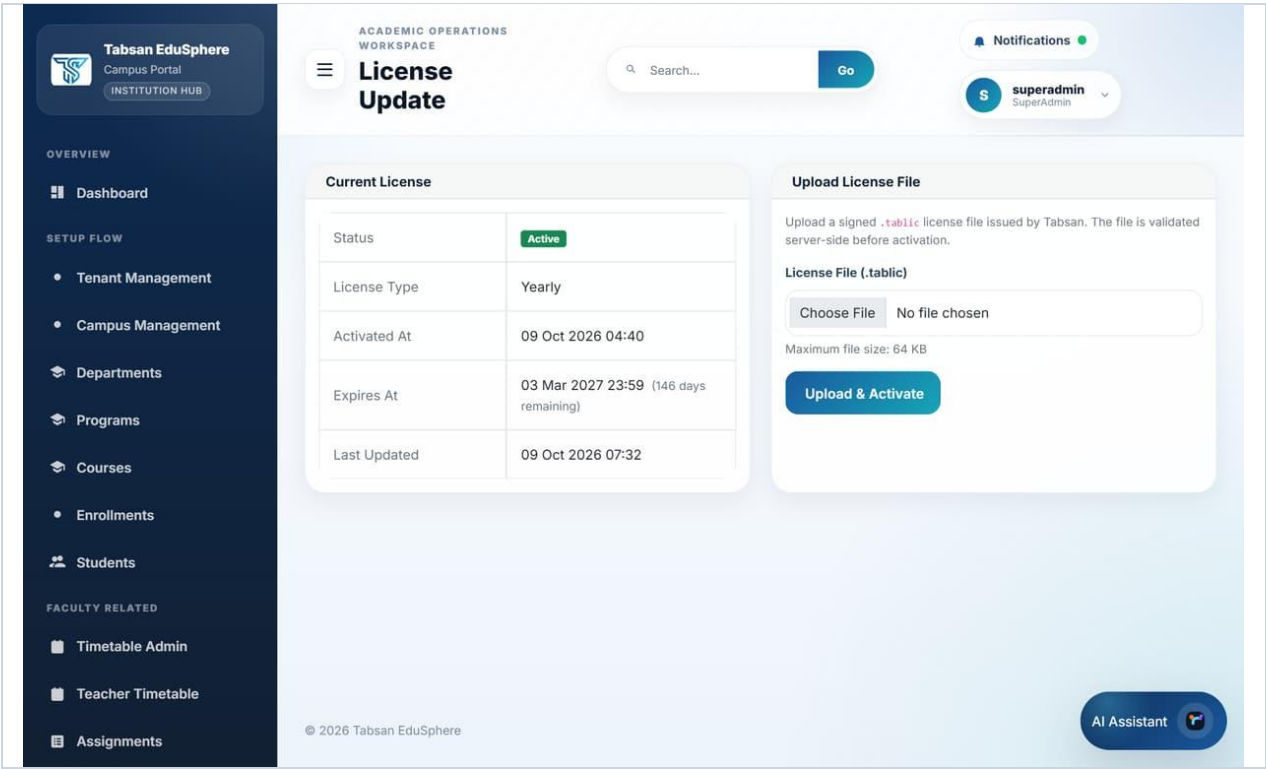

Figure 11.10 License Update

IMPORTANT License files are encrypted and digitally signed. A file that has been edited in any way is rejected. The expiry date is fixed inside the file and is the same on every server it is activated on. When a license expires, the portal becomes read-only until a new license is uploaded.

11.10 Library Config

Available to: SuperAdmin

Connects the portal to an external library system: enter the **Catalogue URL**, **Loan API URL** and **API Token**, then click **Save Configuration**.

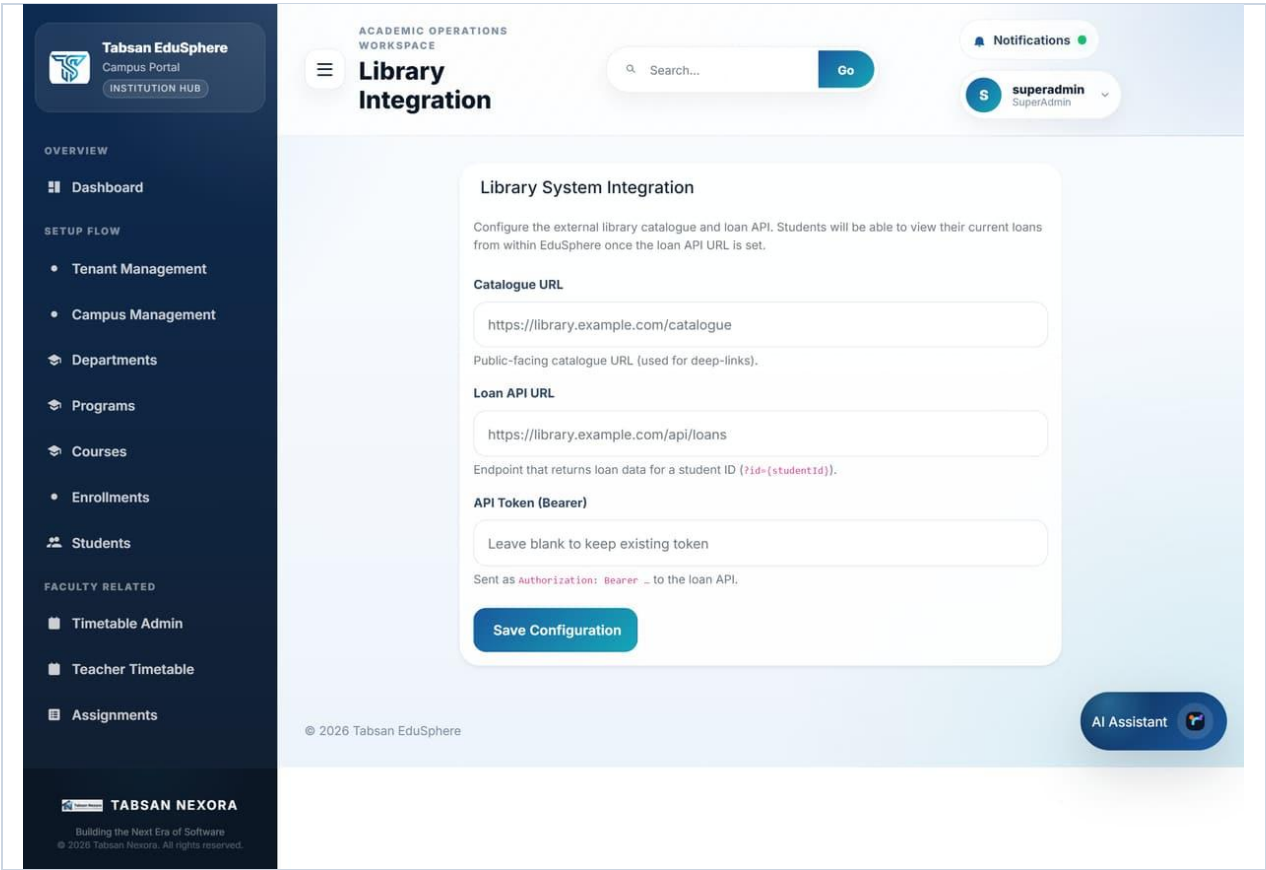

Figure 11.11 Library Config

11.11 Accreditation

Available to: SuperAdmin

Download the accreditation report template, complete it, and upload it back for record keeping.

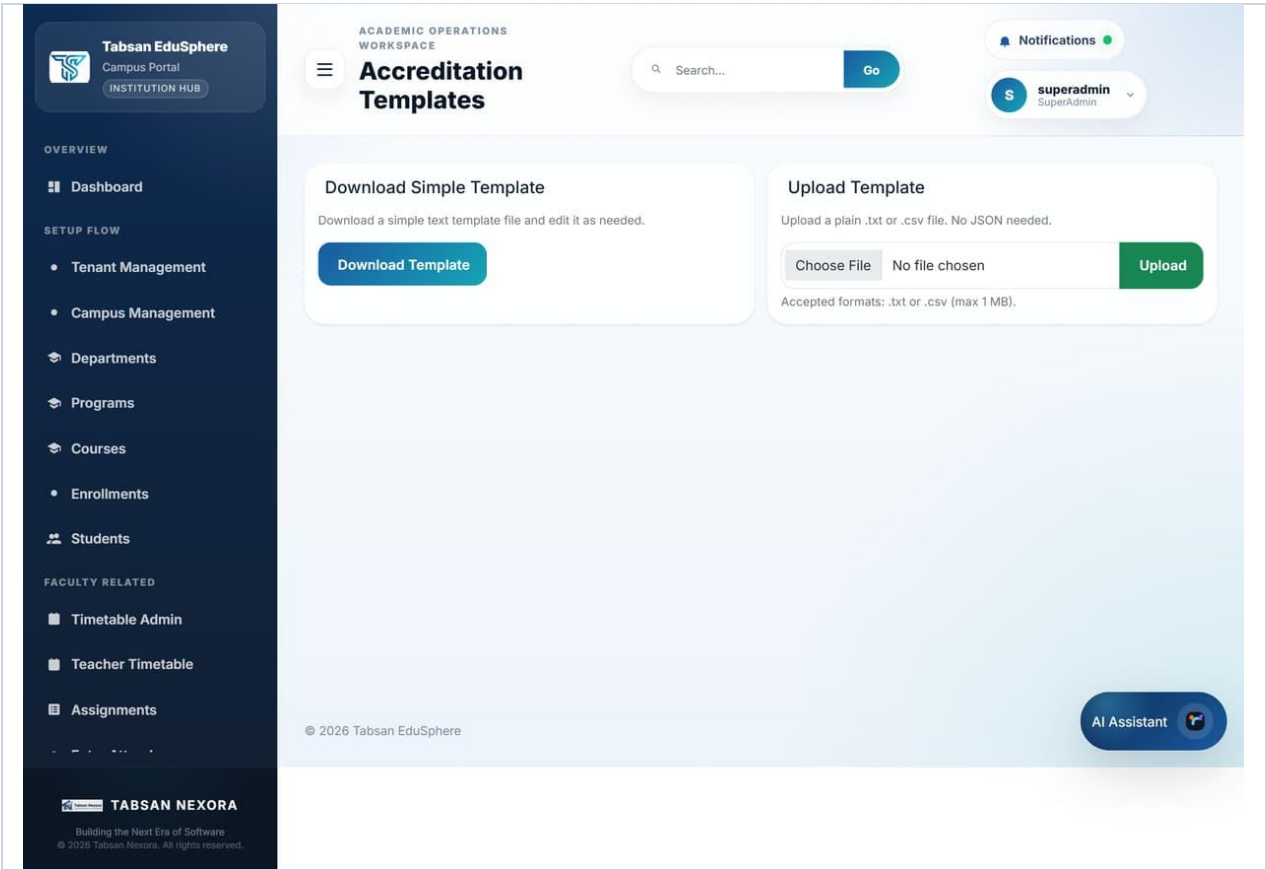

Figure 11.12 Accreditation templates

11.12 Advanced Audit

Available to: SuperAdmin

The audit log records who did what and when, with before and after values. Filter by text, actor, action, module and date range, then click **Apply Filters**. Export with **Export CSV**, **Export Excel** or **Export PDF**.

12 Troubleshooting and FAQ

12.1 Common questions

Problem	What to do
I cannot sign in.	Check the username and that Caps Lock is off. After several failed attempts the account locks temporarily; ask your administrator to reset it.
I was returned to the Helpdesk with a message.	The page is not available to your role. The message explains why. Ask your administrator if you need access.
A list is empty.	Check the filters at the top of the page. Most pages need a department, course or offering selected first.
Save buttons return "read-only mode".	The license is missing or expired. A SuperAdmin must upload a valid license in License Update.
A student cannot enrol in a course.	The course may have a prerequisite the student has not passed, or enrolment may be closed for the campus.
A student cannot apply for graduation.	Only active University students in their final semester with a completed FYP can apply. Check Degree Audit for unmet requirements.
I lost my authenticator device.	Use a recovery code to sign in, or ask an administrator to reset two-factor authentication.
Exported files do not open.	Make sure the download finished. CSV files open in Excel; PDF files need a PDF reader.

Appendix A Menu Access by Role

The table lists every sidebar menu and the roles that see it with the default settings. SuperAdmin can change Admin, Faculty and Student visibility in Sidebar Settings. Admin access was captured with the testadmin account.

Appendix B Glossary

Term	Meaning
CGPA	Cumulative Grade Point Average across all completed semesters.
Course offering	A course taught in a specific semester or class, usually by one faculty member. Students enrol in offerings.
Degree rule	The credit and GPA requirements a University program must meet before a student can graduate.
FYP	Final Year Project – the capstone project of a University program.
Institution type	University, College or School. Departments, grading and progression follow the institution type.
Level	A semester (University) or class (School and College) within a program.
License (.tablic)	The encrypted, signed file that activates the portal and sets its expiry date.
Module	A feature area (for example Attendance or Reports) that SuperAdmin can activate or deactivate.
Prerequisite	A course a student must pass before enrolling in another course.
Read-only mode	The state in which the portal allows viewing but blocks changes, used when the license is not valid.
Tenant	A separate institution in the installation with its own campuses, departments, users and data.
Two-factor authentication (2FA)	A second sign-in step using a 6-digit code from an authenticator app.
